Article 77. To see if the Town will amend its Zoning By-Law as follows:

1. By striking out the first paragraph of Section 1 entitled, "Establishment of Districts" and inserting in place thereof the following new paragraph:
"For the purposes of this By-Law, the Town of Arlington is hereby divided into districts of nine classes to be known as:
 1. Residence A Districts
 2. Residence B Districts
 3. Residence C Districts
 4. Residence C-1 Districts
 5. Residence D Districts
 6. Residence E Districts
 7. Business A Districts
 8. Business B Districts
 9. Industrial Districts

(Inserted at the request of the Planning Board)

Article 78. To see if the Town will amend its Zoning By-Law as follows:

1. By inserting after Section 15-5 the following new title, "Residence E Districts" and new sections:

15-1.1 Use regulations:

In the Residence E District no new building or part thereof shall be constructed or used and no new building or part thereof shall be altered, enlarged, reconstructed, or used and no land shall be used for:

- (a) any industry, trade, manufacturing or commercial purpose;
- (b) any purpose except one or more of the following:
 1. Any use which is permitted in a Residence B. District.
 2. Apartment house
 3. Such accessory purposes which are customary or usual in connection with the foregoing purposes and are incidental thereto, including a private garage.

15-1.2 Parking Spaces:

In the Residence E District, automobile parking spaces shall be required off-street and on land associated with an adjacent to each residential structure containing three or more dwelling units erected after the date of adoption of this amendment. Such accessible and usable spaces, plus spaces for entrances, exits and driveways, in said off-street parking area shall be provided at the ratio of at least one parking space for each dwelling unit in each such structure. Such off-street parking spaces shall not be within 15 feet of any street line, nor in the front yard of any building unless within an underground or basement garage not opening directly onto the frontage street. All Parking facilities so provided are to be for the exclusive use of residents of the property and their guests. Provided the above standards are met, parking may be permitted within the interior of a building used primarily for residential purposes, or on the ground floor within the building line exposed otherwise to the elements, or in an open area.

No parking or driveways shall be permitted within 15 feet of the line of embankment of an open stream.

Within the Residence E District a buffer strip, at least five feet in width, shall be provided between any driveways or parking areas associated with any residential structure containing three or more dwelling units erected after the date of adoption of this amendment and any abutting property line. Said buffer strip shall be property planted and shall be provided with opaque fences for visual protection of abutting properties. The afore-said fences shall not be less than three feet or more than four and a half feet in height. Provided they meet the height requirements of fences, as set forth in this paragraph, suitably dense shrubbery may be used in lieu thereof.

Section 15-1.3: Height and Area Regulations:

Single family houses and two family or duplex houses constructed in the Residence E district after the effective date of this amendment shall be required to conform to the minimum lot area and yard requirements of the Residence B district.

Single family houses or two family duplex houses constructed in the Residence E district after the effective date of this amendment shall be required to conform to the minimum building area requirements of the Residence B district.

Apartment houses:

Front yard, or set back, measured from the front property line: 20 feet minimum depth.

Side yards: There shall be two side yards, 25 feet minimum width for each side yard.

Rear yard: 40 feet minimum depth.

Height 40 feet — three stories maximum.

Lot size: In the Residence E district, any property containing three or more dwelling units erected after the date of adoption of this amendment shall be of such an area as to provide 1,250 square feet per dwelling unit. This area, which shall be calculated on the basis of the total land within the boundaries of the property, may include the land upon which the building is erected, Landscaping and Recreation Area, other planting areas, surface water, parking space, driveways, sidewalks, and any easements upon the land.

In the Residence E district, all buildings used for residential purposes shall conform to the court regulations set forth in Section 15-A, paragraph 2 of the Zoning By-Law.

Section 15-1.4: Landscaping and Recreation Area:

Landscaping and Recreation Area shall be required in the Residence E districts and shall equal at least 30 percent of the Gross Habitable Floor Area on the lot. Within the Residence E districts balconies shall not be used for the purpose of calculating Landscaping and Recreation Area requirements.

If an open stream falls within the boundaries of a property, the minimum set back of any building therein shall be fifteen feet from the nearest embankment of the stream. In no case, however, shall any building be permitted within 15 feet of the embankment of an open stream. The area, measured from the embankment may be used in the calculation of Landscaping and Recreation Area.

A planting strip not less than five feet in width shall surround each residential building erected in the Residence E districts after the date of adoption of this amendment.

All used and unused ballots, tally sheets, total vote sheets, voting lists, and all other records pertaining to the Town Election, properly signed and sealed, were delivered to the Town Clerk to be preserved by her during the time required by law.

The persons declared elected town officers, including town meeting members, were notified as required by the General Laws.

A true record.

ATTEST:

Ann Mahon

Town Clerk

In accordance with Section 61 of Chapter 51 of the General Laws, the return of the registered voters in Arlington at the close of registration for the Town Election on February 11, 1964, was forwarded to the Secretary of the Commonwealth.

The results of the count of votes cast at the Town Election were forwarded to the Secretary of the Commonwealth.

In accordance with Section 132 of Chapter 54 of the General Laws, the total number of voters checked on the voting lists in each precinct was forwarded to the Secretary of the Commonwealth.

In connection with the work of the Department of Corporations and Taxation, a list of Town Officials was forwarded to the Director of Accounts.

ANNUAL TOWN MEETING — MARCH 16, 1964

Pursuant to the Warrant of the Selectmen served according to law upon the inhabitants of the Town of Arlington by a constable of said Town, notices having been sent by mail by the Town Clerk at least seven days before the day of the meeting to the town meeting members elected and qualified to act in town meetings in Arlington under the provisions of Chapter 43A of the General Laws, as amended, and published in the local newspapers as required by the Town's By-Laws, the town meeting members met in the Town Hall, in said Town, on Monday, March 16, 1964, at eight o'clock in the evening. The Warrant calling the meeting served as the notice sent by mail to the town meeting members by the Town Clerk.

*Elected

A certificate was filed with the Town Clerk by the Chairman and Clerk of Precinct 14 relative to a meeting held on March 12, and of the election to fill the town meeting vacancy until the next annual election, as follows:

Precinct 14 — Kermit C. Streng, 67 Claremont Avenue, to fill until the next annual election the vacancy arising from the resignation of William J. Squires, whose term was to expire in 1966.

Lists of the duly qualified town meeting members were used at the entrances to the meeting place and were in charge of Mary A. Farrington and Charlotte E. Emerson. The lists contained the names of two hundred forty-three (243) town meeting members and eight (8) town meeting members at large qualified to participate and vote in town meetings in Arlington.

The check lists filed with the Town Clerk at the close of the meeting by the checkers showed that two hundred twenty-two (222) town meeting members and eight (8) town meeting members at large (91.6% of total 251) attended the meeting.

Philip H. Burt was sworn by the Town Clerk as Stenographer to impartially and correctly report the proceedings of the meeting to the best of his ability.

The Moderator, Lawrence E. Corcoran, declaring a quorum present, called the meeting to order at 8:05 P.M.

The meeting was opened with the singing of "The Star Spangled Banner" by the assembly, accompanied by Mr. Anton Kovar, pianist, and Mr. Augustus Mazzocca, trumpeter, both of the School Department.

The invocation was given by the Rev. Robert Bullock, curate at St. Camillus Church.

The Town Meeting Members who had not previously been sworn were thereupon sworn by the Moderator.

Mr. John W. Bullock, Chairman of the Board of Selectmen, presented the following resolution with respect to the passing of former Selectman Marcus L. Sorensen, which was adopted by unanimous vote:

RESOLUTION

WHEREAS, the sudden passing of Marcus L. Sorensen from this earth has saddened the entire community, and

WHEREAS, in his service as a Finance Committee member for three years and later as a Selectman for nine years, he contributed unstintingly of his talents, thus promoting the welfare and the progress of the Town to a marked degree, and

WHEREAS, he was a gentle, kindly and considerate person ever mindful of his obligations to his family and always ready to extend a helping hand to his fellowman, and

WHEREAS, he performed his duties quietly and in a dignified manner without desire for personal reward or public acclaim, and

WHEREAS, by virtue of this impressive record his memory will ever be fresh in the minds of Arlington's citizens,

NOW, THEREFORE, BE IT RESOLVED: That the Board of Selectmen, in regular session assembled on this 18th day of November, 1963, do hereby record their profound sorrow at the passing of Marcus L. Sorensen their friend and former colleague and gratefully acknowledge the valuable services that he rendered to the Town, and

BE IT FURTHER RESOLVED: That a copy of this resolution be permanently inscribed in the Town records and a copy thereof properly inscribed be presented to his immediate family and finally that a copy be presented to the next Town Meeting for adoption as a token of esteem with which this outstanding citizen was regarded by all who knew him.

ADJOURNED ANNUAL TOWN MEETING — MARCH 23, 1964

Pursuant to the vote of adjournment of March 19, 1964, and written notices sent by mail by the Town Clerk, the town meeting members met in the Town Hall on Monday evening March 23, 1964, to act upon the remaining articles set forth in the Warrant for the Annual Town Meeting.

Lists of the duly qualified town meeting members were used at the entrances of the meeting place and were in charge of Mary A. Farrington and Charlotte E. Emerson. The lists contained the names of two hundred forty-three (243) elected town meeting members and eight (8) town meeting members at large qualified to participate in and vote in town meetings in Arlington.

The check lists filed with the Town Clerk at the close of the meeting by the checkers showed that two hundred eight (208) elected town meeting members and seven (7) town meeting members at large (85.6% of total 251) attended the meeting.

The Moderator, Lawrence E. Corcoran, declaring a quorum present, called the meeting to order at 8:04 o'clock P.M.

The meeting opened with the singing of the "Star Spangled Banner" by the Assembly, accompanied by Mr. Anton Kovar, pianist, and Mr. Augustus Mazzocca, trumpeter, both of the School Department.

The invocation was given by Rev. Lewis W. Williamson, Pastor of the Trinity Baptist Church.

On motion of Selectman Bullock, duly seconded, it was

1. The classes of persons eligible to receive annuities hereunder shall be limited to the surviving widow who remains unmarried.
2. The applicant must reside in Arlington and continue such residence to be eligible to receive the annuity.
3. The amount of the annuity shall be computed as follows: An amount equal to one-half the employee's regular annual compensation received by him or \$1,400 whichever is less; deducted from this amount shall be an amount equal to any income received by said widow in excess of \$800.00 per year.
4. If the widow is eligible to receive benefits under the provisions of General Laws Chapters 115, 118A, 118C and 118D or receives assistance or a pension from the Veterans' Administration or Social Security, or is eligible for medical care payments under Old Age Assistance or Medical Care for the Aged, or similar programs, the amount of the annuity shall be not greater than the maximum amount that can be received by the widow without reducing or adversely affecting the amount of such benefits.
5. Applications shall be received and processed on behalf of the Town of Arlington by the Arlington Retirement Board. Applications which comply with the requirements hereunder set forth shall be forwarded to the Arlington Retirement Board for their consideration and approval. The Arlington Retirement Board shall keep the original records and periodically review the files to make certain that the recipients continue to remain eligible to receive the annuity.
6. Annually, during the month of January, the recipient shall file with the Arlington Retirement Board a financial statement, under the penalties of perjury, setting forth their income from all sources and such other pertinent information as may be required by the Arlington Retirement Board. The failure to file such statement shall be grounds for the suspension of payments or any other appropriate action authorized to be taken by the Arlington Retirement Board.

Article 78. (Amendment of Zoning By-Law.)

Chairman George M. Herlihy reported for the Planning Board and on his motion, duly made and seconded, it was

VOTED: That the report be received.

Thereupon, on the motion of Mr. Herlihy, duly made and seconded, it was

VOTED: (Unanimously) That the Town will amend its Zoning By-Law as follows:

1. By inserting after Section 15-5 the following new title, "Residence E District" and new sections:

15-1.1 Use Regulations:

In the Residence E District no new building or part thereof shall be constructed or used and no new building or part thereof shall be altered, enlarged, reconstructed, or used and no land shall be used for:

- (a) any industry, trade, manufacturing or commercial purpose;
- (b) any purpose except one or more of the following:
 1. Any use which is permitted in a Residence B District.
 2. Apartment house.
 3. Such accessory purposes which are customary or usual in connection with the foregoing purposes and are incidental thereto, including a private garage.

15-1.2 Parking Spaces:

In the Residence E District, automobile parking spaces shall be required off-street and on land associated with and adjacent to each residential structure containing three or more dwelling units erected after the date of adoption of this amendment. Such accessible and usable spaces, plus spaces for entrances, exits and driveways, in said off-street parking area shall be provided at the ratio of at least one parking space for each dwelling unit in each such structure. Such off-street parking spaces shall not be within 15 feet of any street line, nor in the front yard of any building unless within an underground or basement garage not opening directly onto the frontage street. All parking facilities so provided are to be for the exclusive use of residents of the property and their guests. Provided the above standards are met, parking may be permitted within the interior of a building used primarily for residential purposes, or on the ground floor within the building line exposed otherwise to the elements, or in an open area.

No parking or driveways shall be permitted within 15 feet of the line of embankment of an open stream.

Within the Residence E District a buffer strip, at least five feet in width, shall be provided between any driveways or parking areas associated with any residential structure containing three or more dwelling units erected after the date of adoption of this amendment and any abutting property line. Said buffer strip shall be property planted and shall be provided with opaque fences for visual protection of abutting properties. The aforesaid fences shall not be less than three feet or more than four and a half feet in height. Provided they meet the height requirements of fences, as set forth in this paragraph, suitably dense shrubbery may be used in lieu thereof.

15-1.3 Height and Area Regulations:

Single family houses and two family or duplex houses constructed in the Residence E District after the effective date of this amendment shall be required to conform to the minimum lot area and yard requirements of the Residence B District.

Single family houses or two family duplex houses constructed in the Residence E District after the effective date of this amendment shall be required to conform to the minimum building area requirements of the Residence B District.

Apartment houses:

Front yard, or set back, measured from the front property line: 20 feet minimum depth.

Side yards: There shall be two side yards, 25 feet minimum width for each side yard.

Rear yard: 40 feet minimum depth.

Height: 40 feet — three stories maximum.

Lot size: In the Residence E District, any property containing three or more dwelling units erected after the date of adoption of this amendment shall be of such an area as to provide a minimum of 1,250 square feet per dwelling unit. This area, which shall be calculated on the basis of the total land within the boundaries of the property, may include the land upon which the building is erected, Landscaping and Recreation Area, other planting areas, surface water, parking space, driveways, sidewalks, and any easements upon the land.

In the Residence E District, all buildings used for residential purposes shall conform to the court regulations set forth in Section 15-A, paragraph 2 of the Zoning By-Law.

15-1.4 Landscaping and Recreation Area:

Landscaping and Recreation Area shall be required in the Residence E Districts and shall equal at least 30 percent of the Gross Habitable Floor Area on the lot. Within the Residence E Districts balconies shall not be used for the purpose of calculating Landscaping and Recreation Area requirements.

If an open stream falls within the boundaries of a property, the minimum set back of any building therein shall be fifteen feet from the nearest embankment of the stream. In no case, however, shall any building be permitted within 15 feet of the embankment of an open stream. The area, measured from the embankment may be used in the calculation of Landscaping and Recreation Area.

A planting strip not less than five feet in width shall surround each residential building containing three or more dwelling units erected in the Residence E Districts after the date of adoption of this amendment.

There being no further business under Article 78, the Moderator declared it disposed of.

On motion of a town meeting member, duly made and seconded, it was

VOTED: That the meeting adjourn.

The meeting thereupon adjourned at 10:55 P.M. on Monday, March 23, 1964, until Wednesday, March 25, 1964, at 8:00 P.M.

To vote "Yes" or "No" upon the following questions:

QUESTION NO. 1

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held March 29, 1961, received 219 ☐ Yes votes in the affirmative and 26 in the negative, and in a joint session of the two branches held May 8, 1963, received 244 ☐ No votes in the affirmative and 14 in the negative?

SUMMARY

The proposed amendment provides that the terms of office of the Governor, Lieutenant Governor, Secretary of the Commonwealth, Treasurer and Receiver General, Attorney General and Auditor shall be four years. Executive Councillors, Senators and Representatives shall continue to serve for two years. The four-year term for constitutional officers would become effective at the time of the November election in the year 1966.

QUESTION NO. 2

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held July 18, 1962, received 238 ☐ Yes votes in the affirmative and 1 in the negative, and in a joint session of the two branches held May 8, 1963, received 246 ☐ No votes in the affirmative and 2 in the negative?

SUMMARY

In the event that any public office, whether elective or appointive, shall become vacant as a result of enemy attack, the proposed amendment would enable the General Court to provide for prompt and temporary succession to the powers and duties of such offices, and to take steps to insure continuity of government of the Commonwealth and its political subdivisions.

QUESTION NO. 3

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held March 29, 1961, received 251 ☐ Yes votes in the affirmative and 0 in the negative, and in a joint session of the two branches held May 8, 1963, received 252 ☐ No votes in the affirmative and 3 in the negative?

SUMMARY

The proposed amendment provides that the credit of the Commonwealth may be given, loaned or pledged only by a two-thirds vote of each branch of the Legislature. In no event shall the credit of the Commonwealth be given or loaned to or for any individual, private association or corporation privately owned or managed.

QUESTION NO. 4

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held July 18, 1962, received 220 ☒ Yes votes in the affirmative and 24 in the negative, and in a joint session of the two branches held May 8, 1963, received 258 ☐ No votes in the affirmative and 1 in the negative?

SUMMARY

The proposed amendment authorizes both the Governor and the Executive Council to require opinions of the Justices of the Supreme Judicial Court on Questions of law. The present requirement that the Governor and Council agree before a question may be submitted would be annulled.

QUESTION NO. 5

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below which was disapproved in the House of Representatives by a vote of 109 in the affirmative and 109 in the negative and was disapproved in the Senate by a vote of ☐ Yes 16 in the affirmative and 20 in the negative? ☐ No

SUMMARY

The proposed measure provides that henceforth appointments in the executive branch of the government shall not require the advice and consent of the Governor's Council. Exceptions to this provision include appointments to the Youth Service Board, Industrial Accident Board, Commission of the Department of Public Utilities, Parole Board and Appellate Tax Board, which appointments shall continue to require Council action. However, should the Council fail to act upon such appointments within thirty calendar days, then the person involved shall be deemed to have been lawfully appointed. Any appointment in the executive branch by an officer other than the Governor which heretofore required Council approval shall henceforth require approval by the Governor.

Removals from office shall no longer require the advice and consent of the Council, except in the case of the Youth Service Board, which removals must still receive Council approval. As in the case of appointments still requiring Council approval, such recommended removal from the Youth Service Board must be acted upon by the Council within thirty calendar days; otherwise the proposed removal shall become effective as if approval had been given. In the case of any appointment which heretofore required Council approval the Governor may, within fifteen days of the making of the appointment, remove the person appointed without cause.

The Council shall no longer be required to approve the fixing of any compensation for services rendered in the executive department. And henceforth there need be no approval by the Council of actions or agreements by executive officers, including but not limited to borrowings and loans, investments, leases, licenses, purchases and conveyances, and contracts, and also including the promulgation of rules and regulations.

Notwithstanding the foregoing, the Governor shall at all times remain free to seek the advice and consent of the Council upon any matter.

QUESTION NO. 6

LAW SUBMITTED UPON REFERENDUM AFTER PASSAGE

Do you approve of a law summarized below, which was approved in the House of Representatives by a vote of 180 in the affirmative ☐ Yes and 40 in the negative and was approved in the Senate by a vote of 28 in the affirmative and 5 in the negative? ☐ No

SUMMARY

Under the Act, effective as of January 1, 1964, each member of the General Court shall receive seventy-eight hundred dollars for each regular annual session, the President of the Senate and Speaker of the House of Representatives shall each receive the same amount as additional compensation, and the floor leaders of each of the major political parties in the Senate and House, the Chairman of the Senate Committee on Ways and Means and the Chairman and Vice-Chairman of that committee of the House, shall each receive thirty-nine hundred dollars as additional compensation, to be paid as provided in the Act. After the same date the annual expense allowance is to be six-hundred dollars for each member and the travel allowance is to be eight cents per mile with a stated minimum and an alternative, and a member chosen to fill a vacancy or who resigns during a session is to be entitled to per diem compensation at the rate for each regular annual session and to the allowances for travel and other expenses for the time of his membership.

It is also provided that in addition to the compensation for the 1963 annual session the President of the Senate and Speaker of the House shall be paid thirty-nine hundred dollars, the floor leaders of each major political party in the Senate and House, the Chairman of the Senate Committee on Ways and Means and Chairman and Vice-Chairman of that committee of the House, shall be paid twenty-nine hundred and twenty-five dollars and each other member shall be paid nineteen hundred and fifty dollars. Each member shall also be entitled to an additional expense allowance of two hundred dollars for the calendar year 1963 and the travel allowance shall be at the rate of eight cents per mile with a stated minimum and an alternative for the balance of the calendar year 1963.

QUESTION NO. 7

A. Shall licenses be granted in this town for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages)? ☐ Yes ☐ No

B. Shall licenses be granted in this town for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)? ☐ Yes ☐ No

C. Shall licenses be granted in this town for the sale therein of alcoholic beverages in packages, so called, not to be drunk on the premises? ☐ Yes ☐ No

All the above to be voted for on one ballot. The polls will be open from 7 A.M. until 8 P.M. and you will notify and warn the voters of the Town of Arlington to meet at the times and places herein specified by leaving at every dwelling house in the Town a printed copy of this warrant and also by posting a copy of the same at the doors of the Town Hall and in a conspicuous place in each of the fourteen precincts of the Town seven days, at least prior to the time of said meeting.

Hereof, fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, on or before said day and hour of meeting.

Given under our hands in said Arlington, this fifth day of October in the year of our Lord, one thousand nine hundred and sixty-four.

Annual Report of the Board of Assessors

During 1964, the Board of Assessors met every Monday evening, as well as for special meetings called by the Chairman, especially during July and August, when regular meetings are not scheduled.

At the organizational meeting on the Monday following the Annual Town Election, the members, Mr. William O. Hauser, Mr. Walter S. Cooledge Jr., and Mr. John B. Byrne Jr., met and unanimously elected Mr. Cooledge as Chairman, and Mr. Hauser as clerk for the ensuing year.

Hearings were held with property owners regarding valuations of real and personal property and motor excise taxes, as well as statutory exemptions for veterans, widows, elderly, etc.

During the year, the board members attended all the conferences conducted by the State Department of Corporations and Taxation, and also the Assessors' Seminar held at the University of Massachusetts.

The board made weekly trips into the "field" during the year to assess new property, as well as additions and alterations to existing buildings.

During the month of January, members of the Board made individual inspections throughout the town and assessed personal property in the amount of \$5,568,250.00.

The number of bills processed by the office this year was in excess of 38,000 in the following categories:

Motor Excise	25,000
Real Estate	12,574
Personal Property	587
	<u>38,161</u>

The following permits were received from the Building Department during the year:

Residential Buildings	77	Signs	31
Apartments	8	Swimming Pools	2
Additions & Alterations	114	Church	1
Garages	4	Demolish Buildings	27
Fire Escapes	4	Miscellaneous	42

The following is a comparison of exemptions granted on Real Estate, as authorized by law:

<u>Classification</u>	<u>1964</u>	<u>1963</u>
Elderly	\$212,788.11	\$ ----
Veterans (disability, etc.)	170,941.92	158,288.71
Widows	17,089.33	21,941.01
Old Age	1,111.20	9,940.50
Blind	5,093.00	5,076.00
Hardship	4,478.56	5,095.55
Minors	370.40	338.40
	<u>\$411,872.52</u>	<u>\$200,680.17</u>

The total amount of statutory exemptions granted in 1964 represents approximately \$4.47 on the Tax Rate.

New property was found and total valuation increased as follows:

January 1, 1960	\$1,974,500
January 1, 1961	1,686,400
January 1, 1962	1,428,200
January 1, 1963	1,984,800
January 1, 1964	1,904,450
January 1, 1965	1,200,000 (estimate)

The Assessors wish to point out that the estimated increase in new value includes approximately \$715,000.00 for apartment houses. This does not represent a completed value, as many of the apartment houses were unfinished as of January 1, 1965.

The tax rate figures, statistics and percentages of appropriations by department follows:

Walter S. Cooledge, Jr. - Chairman

John B. Byrne, Jr.

William O. Hauser - Clerk

Report of the Tree Warden and Superintendent of the Moth and Town House Grounds Department

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Sir:

I herewith submit the report of the Tree, Moth and Town House Grounds Departments for the year ending December 31, 1964. A great part of this work was done under the direction of George M. Dolan, our late Tree Warden and Moth Superintendent.

TREE DEPARTMENT

During the planting season this year we planted three hundred and sixty-five trees. This consisted of one hundred and twenty (120) trees planted on a completed street basis and two hundred and twenty seven (227) trees as replacements and individual requests. The Spring planting consisted of three hundred forty seven (347) Norway Maple trees. In the Autumn we planted eighteen (18) large Linden trees on Massachusetts Avenue between Central Street and Railroad Avenue. These trees were planted as the result of the cooperative efforts of the Tree Department, the Planning Board and the Beautification Committee. At the present time three trees of this group are in an area recently affected by a gas leak and I hold little hope for their survival. The other fifteen trees seem to be doing well.

Thirteen (13) trees were ordered out by the Board of Selectmen for the construction of streets, sidewalks, or other necessary construction at: Henry Street (1); Dothan Street (1); Elwern Road (4); Surry Road (1); Chestnut Street (5); and Temple Street (1). Additional trees were removed for storm drain construction on Elwern Road, Henry Street and Spy Pond Field.

Public hearings were held for the removal of trees at 103 Everett Street; 14 and 18 Hillcrest Street and 31 Pine Street. As no objections arose these trees were removed at the expense of the petitioner. A hearing was held for removal of a tree at 137A Massachusetts Avenue. An objection was submitted in writing and the petition was denied.

Trees were removed and pruned by this Department for the Park, School, Cemetery and Public Works Departments upon request of Department heads. Part of this project was the removal of forty-five (45) diseased storm-damaged, or otherwise dangerous trees in Menotomy Rocks Park in cooperation with the Park Department.

The Boston Edison Company and New England Telephone and Telegraph Company removed the tops of twenty trees with their wires going through them. We removed the debris and the rest of the tree below grade with our stump cutter. In addition fifty (50) large trees over twenty four inches in diameter and eighty (80) lesser trees were removed below grade by this Department.

Numerous Elm trees were sampled for Dutch Elm Disease and three showed a positive test result. This appears to show a marked decrease in Dutch Elm Disease, but due to the conditions of the specimens of many private trees, a true test is unlikely.

The following is a breakdown of major reasons for tree removals in 1964:

1. Heartwood rot - twenty eight (28)
This disease is capable of infecting almost all major species of trees.
2. Maple Die Back - twenty three (23)
Infects Norway Maple and Sugar Maple trees, mainly Sugar Maples. This is a relatively new disease and the cause is not known.
3. Canker diseases - seventeen (17)
Mainly on Norway Maple and Elm trees.
4. Verticillium Wilt - sixteen (16)
Infects mainly Norway Maple trees.
5. Root Diseases - sixteen (16)
Usually Norway Maple, Sugar Maple and Silver Maple trees.
6. Dutch Elm Disease - fifteen (15)
American and English Elms.

Followed in a lesser degree by storm damage, mechanical injury, various minor diseases and adverse environmental conditions.

Our yearly pruning and maintenance program continued with the pruning, raising, cutting back over houses and other necessary maintenance on fifty (50) streets in the town. Thirty-one (31) other streets with young trees (five to ten years old) were raised and shaped. Many individual requests for maintenance were received and taken care of during the year.

Trees were trimmed for better vision of street lights, traffic lights, and signs upon request of the Wire Inspector and Police Department. Shrubs were moved at the Dallin Library upon request of the Library Trustees.

Several houses were moved from the Arlmont Village Section on Route 2 to various locations on Day Street, Appleton Street, Smith Street and Colby Road. Numerous young trees were transplanted; two young trees removed after a hearing; and other trees trimmed in connection with this moving. All routes were approved by the Tree Warden and any necessary tree work done at the movers' expense.

Christmas trees were removed with the brush chippers throughout the Town.

The personnel and equipment of this Department assisted the Public Works Department in snow removal operations throughout the year when called upon to do so.

The Boston Edison Company and the New England Telephone and Telegraph Company were given permission to do spot line clearance on various streets when requested.

Due to the serious drought conditions of the last three years many young trees were watered where possible. The effect of the prolonged drought is expected to show up in many trees in 1965. The Sugar Maple trees already weakened by Maple Die Back will be most seriously affected.

MOTH DEPARTMENT

Due to the recommendations of the University of Massachusetts dormant spraying of Elm trees was eliminated in 1964.

The general spraying, by helicopter, of the Town, was not done due to the rules of the Massachusetts Pesticide Board.

All trees on public property in the Town were sprayed when and where necessary by this Department.

All Elm trees on public ways, parks, schools, and on cemetery property were sprayed hydraulically with SEVIN, to control Elm Leaf Beetle. Forty two hundred (4200) gallons of formulation was used.

Because of severe drought conditions heavy build-up of leaf hoppers and aphids developed in various sections of the Town. These areas were treated with SEVIN and Lindane where necessary throughout the Summer.

Other pests including Tent Caterpillars, Rose Chafers, Canker Worms, Ants, Leaf Miners and other lesser pests were sprayed when necessary.

Several Maple trees were sprayed with fungicide to protect them against leaf infection.

Poison Ivy was sprayed with weed killer at twenty three locations throughout the Town and two locations in the Great Meadows in Lexington on Arlington property. Several heavy infestations previously treated in 1963 were re-treated for minor growth this year.

Japanese Beetles are less of a problem this year due to the drought. The dry conditions over the last few years have reduced this pest to a fraction of its past importance.

Bees' and hornets' nests were sprayed or cut down when called to our attention.

The park area at the Town Hall, Robbins House and Library was sprayed completely once and spot treated several times during the year.

One of our large hydraulic sprayers was used to spray disinfectant at the sanitary fill area by the Public Works Department.

TOWN HOUSE GROUNDS

As in the past, the personnel of the Tree and Moth Departments maintained the areas of the Town House Grounds, the lawn and shrub areas of the islands on Mystic Street, the Municipal Parking Lots and the Police Station.

The pool at the Town House Grounds was repaired and painted as usual with Blue Silasheen Paint.

The Patriots Day celebration attracted large crowds necessitating the roping off of the entrance and the policing of the area by the men of this Department.

The regular maintenance of the grounds including fertilizing, top dressing, sodding, spraying and planting, was carried on. We also used forty (40) yards of wood chips as a mulch in the beds. These chips were the by-product of our stump removals and brush chipper operations.

Major repairs to the flagpole including the removal and resetting of the statue at the top, installation of a new pulley and halyard rope were necessary.

The Dogwood trees were seriously damaged by winter kill the winter of 1962-63. They have been treated with liquid fertilizer the past two years and pruned. A D.D.T. paint was applied to cankers and they have

been sprayed to control borers. Most of these trees are making a good comeback but two of the pink variety are slower in responding to treatment.

Heavy cables were installed in a large Elm tree and a Butternut tree to support weakened crotches.

We planted five (5) Winged Euyonomus, twenty four (24) Barberry, five (5) Viburnum and 2,000 Pachysandra plants as part of our yearly replacement program.

A watchman was employed during the summer to patrol the grounds every evening, and Saturdays, Sundays and Holidays. He also checked the Robbins Library on weekends.

Snow removal from all the pedestrian areas of the Town Hall and Robbins House was taken care of as usual. All areas including paths, parking lots and roadways were sanded when necessary.

In conclusion I wish to thank you, the members of your Department, the personnel of the Tree Department and all other Departments of the Town.

Respectfully submitted,

Frank P. Wright
Tree Warden
Superintendent of Moth and Town House
Grounds Departments

Annual Report of the Park Commission

January 11, 1965

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Mr. Monahan:

We, herewith, submit the annual report of the Arlington Park and Recreation Department for the year ending December 31, 1964. The Board of Park Commissioners expresses its sincere appreciation to the Town Manager, the Honorable Board of Selectmen and all branches of our Town government for their co-operation, understanding and support in the promotion of a sound, progressive and ever expanding program.

The Board held its organization meeting on February 11, 1964 and Edward D. Buckley was elected chairman.

Mr. Edward D. Buckley served as Chairman and as a member of the Park Commission for twenty-one years. It is with a deep sense of loss that we record his passing away on September 12, 1964. The remaining members of the Board of Park Commissioners have lost a true and a loyal associate who served the citizens of Arlington not only as a faithful and conscientious member of this Board, but in many other capacities in his private life.

He was instrumental in enlarging the present park and recreation programs and it was through his tireless efforts that the Park Department developed North Union, Thorndike, Linwood, Summer, Robbins Farm and Florence playgrounds. The present recreation program was expanded through Mr. Buckley's efforts and one of his recommendations was that a full time recreation director be engaged.

May His Soul Rest In Peace.

On October 5, 1964, Frederick R. Buckley, Jr. was appointed to fill the unexpired term of his uncle, Edward D. Buckley, and Mr. J. Fred McGann acted as Chairman pro tem. On December 22, 1964, Frederick R. Buckley, Jr. was reappointed Park Commissioner for three years.

MAINTENANCE

Cemetery Street:

Town Meeting voted to deed the Cemetery Street playground to the Arlington Housing Authority to be used for the building of apartments for the elderly. The playground was closed at the end of the summer playground program and play apparatus was removed by September 1, 1964.

Bishop School:

Play apparatus and baseball backstop was painted.

Crosby School:

One additional basketball court was installed at a cost of \$1,500.

Florence Avenue:

Repaired baseball backstop and resurfaced baseball diamond.

Replaced picnic table.

Ethel Wellington:

Removed two large elm trees that were diseased.

Parallel:

Painted chain link fence.

Reservoir Field:

Replaced fifty floodlight bulbs.

Erected 150 feet of temporary grandstands for softball and Little League games.

Replaced locks on doors six times.

Repaired side wall of building.

Spy Pond Field:

Erected 500 feet of 6' chain link fencing along easterly side of field.

Expenditure of \$1,990.

Also erected an entrance gate on Wellington Street.

Warren A. Peirce Field:

Painted the Wayne Grandstand.

Moved the Public Address System and connected it to the annex in the addition to the high school.

Menotomy Rocks Park:

A small metal tool house was erected and an 8 ft chain link fence enclosing same. Expenditure \$819.

GENERAL MAINTENANCE

A staff of eleven permanent employees and twelve temporary employees assisted in maintaining the parks and play areas during the year. It was necessary to employ these temporary men during the summer which was our busiest season and when our regular employees were on vacation.

The Park Department was charged with the maintenance of school athletic grounds such as Warren A. Peirce and Spy Pond fields. There was no transfer of funds from the School Department.

We maintained seven baseball fields, four Little League diamonds, five softball fields and fourteen tennis courts. These areas were marked daily and watered, as well as policed. The schools have increased in number and their programs have expanded which has forced the recreation maintenance department to extend its services. The increase of Little League play also increased the maintenance work.

Serious consideration must be given to the ways and means of curtailing destructive vandalism on our playgrounds.

RECREATION

At the Annual Town Meeting, it was voted to engage an Assistant Superintendent of Recreation. Mr. Frederick L. Tobin was appointed to fill this position and started his duties on Monday, June 22, 1964.

Summer Playground Program. The total attendance figure for the 1964 season was 78,115, as compared to the 1963 figure of 72,146 and the 1962 figure of 76,823.

The playgrounds were officially opened on Monday, June 22. The schedule called for operation at 18 areas with full time supervision morning and afternoon. A pre-training organizational meeting was held at the high school on June 17, 18 and 19. This pre-training meeting was for information and instructional purposes as to organization, responsibility and program management. Immediately following these meetings, the leader in charge of each playground received an issue of playground equipment, valued at more than \$300 for use on his playground.

Playground activities were many and varied. The amount of activity in any particular program depended largely on the interest of the playground participants and the leadership qualities of the staff personnel.

The following descriptive list indicates the span of our summer program.

Baseball: There were five different leagues in the playground schedule covering three different age brackets. The Pee Wee League was divided into an Eastern and Western League and catered to youngsters 10 and under. The Eastern Pee Wee League contained five representatives from Parallel, Thorndike, North Union, Crosby and Hardy playgrounds. The Western Pee Wee League contained seven teams with every playground in the west represented, with the exception of Locke.

The Midget League contained 16 teams and they played a total of 35 games on Monday, Wednesday and Friday, with 90 boys participating.

The Junior League covered the entire town and had a total of seven teams. Each team played six games with the top three teams playing a round-robin for the top title.

Tennis: Lessons provided by competent instructors, representing the New England Lawn Tennis Association, were held each morning at the Crosby School and Robbins tennis courts from 9:30 to 12:00 Noon. 75 Youngsters from 8 to 16 years of age registered. The instructor was pleased with the progress and felt that most participants would return next year. A playground leader was assigned to assist her and she felt that she accomplished more in a lesson. She remarked that the courts were in excellent condition at all times.

Archery: 88 youngsters registered in this popular program. Classes were held five mornings a week at Spy Pond Field and Warren A. Peirce Stadium. Instruction was given the first half hour and shooting practice the second half hour. Three tournaments were held: two with Browne Nichols and one with Weymouth.

Girls' Softball: The season opened with a great amount of interest and enthusiasm. This enthusiasm was due to some extent to the rivalry that was reached toward the end of the 1963 program. It was decided that the league would be divided into Junior and Intermediate categories, according to ability and age. The Junior League was established for those who had little or no experience with softball, or those who were too young to play on a more advanced team. The Intermediate League was designed for those who had a substantial amount of experience and were in an older age bracket. There were nine Junior teams and six Intermediate teams. In order to stimulate interest, encourage good sportsmanship and increase competitive spirit, five All-Star games were scheduled with Waltham.

Arts and Crafts: The crafts supervisor prepared materials and visited playgrounds on a scheduled program for the purpose of providing instructions. Outstanding works received award recognition at the Final Day Festival. There were over 6,500 craft projects issued during the summer season. Some could be done quickly and easily, others were difficult and time consuming. Thanks to the co-operation of the Harvard Trust Company officials, crafts were displayed in the bank for one week prior to the closing of the playgrounds.

Retarded Children's Program: The summer recreation program for retarded children concluded with an average daily attendance of 24. For eight weeks, the children enjoyed a program especially suited to the needs of the exceptional child. The weekly bowling schedule was the most popular. On four occasions, they journeyed to Nahant Beach where swimming and splashing provided helpful exercise and endless laughter. They watched with glee the antics of the animals at Franklin Park Zoo and the amazing sights at Pleasure Island. Drumlin Farm in Lincoln was the last trip on the agenda. Here, they were conducted on a guided tour and had a country hay ride.

On Tuesday evening, August 11, "Family Night" was held at the Brackett School. More than fifty parents and children attended. A display of arts and crafts projects were in evidence. Entertainment was provided by the children. Movies of summer activities were shown. The evening was climaxed with a presentation of "John F. Kennedy" medallions to the girls who volunteered so much time to this worthy cause.

This program was jointly sponsored by the State of Massachusetts and the Town of Arlington.

Grammar School Basketball: This program, sponsored jointly with the School Department, was expanded from ten teams to twelve with every elementary school having their own team. Grammar School Basketball for fifth and sixth grade boys was held on Saturday mornings in the Junior High East, Junior High West, and high school gymnasiums. Twelve teams were formed and a ten game round-robin schedule was set up. Program started in December continuing through March. 160 boys registered.

Flag Football: Once again, the Park and Recreation Department in conjunction with the Arlington Public Schools sponsored an afternoon intramural Flag (non-tackling) Football program. The program started the week of September 21 with several practice sessions devoted to team organization and instruction in basic fundamentals. Flag football is a form of football which involves no tackling and no leaving your feet to block your opponent. The rules and conduct of the game are similar to regular football except that stoppage of play was achieved by removing colored flags attached to the ball carrier. The practice periods were followed by a seven weeks round-robin schedule of games with eight teams in the league.

Expansion of Program:

Year	Number of boys	Number of games
1962	90	4
1963	125	6
1964	311	10

Tuesday night, November 10, this department hosted a Sports-Refreshment Night for some 450 members of the Flag Football program and their parents. Tommy Yewcic, ace punter and quarterback for the Boston Patriots, was guest speaker. Film strips featuring cartoons and highlights of the Army Navy Game prefaced the refreshment period which terminated the evening. Our first annual championship game was played on Veterans Day between the Dallin School Steelers and the Stratton School Giants.

Pee Wee Hockey: This league was organized for the seventh year with 120 sixth, seventh and eighth grade boys registering. The league was formed into eight teams with fifteen boys on each team. Games were played every Saturday from 7:00 to 9:30 A.M. at the M.D.C. Rink on Route 2. The season opened December 14 and ended March 8.

Winter Arts and Crafts: Classes were held every Saturday morning from November through March at the Dallin, Stratton, Locke, Cutter, Thompson and Hardy playrooms for 4th, 5th and 6th grade girls. This program consisted of low games, folk dancing, story telling, short skits and making of holiday gifts. Special holiday parties and a skating party at the M.D.C. Rink on Route 2 were enjoyed by the girls. 180 girls registered for this program.

Ballroom Dancing: 80 boys and girls registered at the Junior High West and 52 boys and girls registered at the Junior High East, to learn ballroom dancing. These youngsters were taught the basic dance steps and proper etiquette. A fee of \$2 00 for ten lessons was charged. Prizes were awarded and refreshments served at the final lesson.

Grammar School Physical Fitness: Grammar School Physical Fitness was added to our recreation program for the first time and it aroused considerable interest. America's physical fitness - or the lack of it - has become a recognized national problem. Presidents Eisenhower, Kennedy and Johnson, have been concerned with it; and each established his own President's Council on Physical Fitness to help America's adult and school population become physically fit. This new program will be a continuation of the flag football program in grades 5 and 6. The boys were instructed in the basic fundamentals of calisthenics, wrestling, apparatus and isometrics. Classes were held every Wednesday afternoon starting in December at the Thompson and Dallin schools and Thursday afternoon at the Stratton School.

Golden Age Club: This club was organized twelve years ago and continues to grow. They held bi-monthly meetings at Fellowship Hall, Pleasant Street Congregational Church, from September through June. No dues were charged for membership and anyone over 62 years of age was eligible. The active membership has grown to 200 persons per meeting.

Trips sponsored by this department were well attended by these elderly persons seeking friendship and recreation. On some occasions as many as three buses were rented to transport them to the Ice Capades, Ice Follies, "Mary Poppins", Travel Show, five Red Sox ball games, American Legion musical show and the Flower Show at Wonderland Park; on trips to Hampton Beach, Plimoth Plantation, and to Boston where they took the boat to Provincetown. During the year, a luncheon and the annual banquet was held at Fellowship Hall.

Softball: This program for adults continues to thrive. Twenty teams registered for its eleventh season. Teams were graded with the strongest teams entered in "A" League and the weaker in "B" League. Each league played two rounds and the first four teams in each league competed for the championship of each league. A town championship series was not played. The annual banquet was held at American Legion Hall and awards

were presented to the Marine Corps League Class "A" champions; and Feeney's Flying A Class "B" champions. Banquet was no expense to town.

A group of All-Stars played an exhibition game and \$25.00 was collected and forwarded to the John F. Kennedy Library Fund.

Basketball: The Adult Basketball League had eight teams which played on Wednesday evenings for a ten week period at the Junior High West. This program gave young men between the ages of 18 and 30 an opportunity to get some exercise. There were four games each night; the league played one round and the first four teams played an elimination series to determine the champion of the town. Any adult interested in playing basketball could join this supervised program.

High School Basketball: This league organized with eight teams and played on Tuesday and Friday evenings at the Junior High West. Only boys in high school, and not representing a school team, were eligible for this league. Two rounds of play were scheduled and the first four teams entered an elimination tournament to determine the championship. The winners were awarded small trophies by the department.

Badminton: Adult badminton classes were held every Tuesday evening from November through March in the new gymnasium at the high school. Competent instruction was available for those who wished to improve their game.

Senior Bowling League: Fifteen teams competed for the 15th year in the Town Bowling League. There were two leagues: one league of eight teams bowled on Tuesday nights; with a seven team league bowling on Thursday nights. The season started in September and finished the following April. A banquet was held at American Legion Hall where awards amounting to \$1,000 were presented to individuals and teams at no expense to the town.

Adult Tennis: Arlington's fourteen tennis courts were in almost constant use this summer. The interest was primarily the direct result of the activities of the Arlington Tennis Club and the Park Department. The club was formed in early March and interest was immediate. Early in May, Arlington tennis fans were treated to an exhibition of expert tennis at the Robbins Farm courts by two professionals from the New England Lawn Tennis Association. The club membership was over 150. About sixty-five students took advantage of the club's instructional program, and about the same number enrolled in the summer playground tennis program.

Swimming: Reservoir Beach opened June 19 and closed on September 10. The beach was restricted to Arlington residents for the sixth year. Residents wishing to use beach facilities were required to register with the exception of youngsters under five years of age. A fee of 25¢ was charged for identification tag which allowed holder access to the beach during the entire summer. 3,971 persons purchased these tags and \$992.75 was turned over to the Town Treasurer. Average attendance was 500 and on hot days there was an estimated attendance of 2,500.

Red Cross swimming classes for young people were conducted by our lifeguards at 11:00 A.M. and 2:00 P.M., Monday through Friday. Classes averaged 60 in the morning and 100 in the afternoon. Children were assigned to three groups: Beginners, Intermediate and Advanced. Red Cross Junior and Senior Lifesaving classes were conducted three days a week.

Christmas Carols: For the 11th year this department registered groups wishing to sing at the creche at Monument Park in Arlington Center during the holiday season. Ten groups participated, among them St. Agnes'

Boys Choir, a group from the Bartlett School, a Bishop School Cub Pack, the Arlington Protestant Youth Council, and neighborhood groups.

Permits: 300 permits to use facilities at Menotomy Rocks Park were issued to Girl Scouts, Boy Scouts, Cub Scouts, church and family groups. Approximately 210,000 persons used this area during the course of the year for picnics, fishing, ice skating and summer playground program. 110 softball and baseball teams were issued permits to use our fields and permits were also issued to basketball teams to use school gymnasiums.

The town purchased land for a small tots area in the Varnum-Magnolia Streets area, plus a small tots area and baseball field in Poets Corner in the St. Camillus Parish area.

Hockey and skating areas have been a problem over the years because of inclement weather - either there was too much snow or it was not cold enough to freeze. Because of these conditions, this department was not able to give the adults and youngsters enough skating. An Article was presented to the Town Meeting in 1964 requesting that the Town procure plans and estimates for the construction of a skating arena to be built on Town owned land on Summer Street. A special committee was set up for this purpose and will report to the Annual Town Meeting of 1965.

The Board of Park Commissioners appreciate the co-operation and assistance rendered by the employees of the department.

Very truly yours,

J. Fred McGann, Chairman
John W. Walsh, 3d

Annual Report of Inspector of Animals

Subject: Annual Report of Inspector of Animals

To: Town Manager

1. A total of 225 animals in Arlington were examined and quarantined for biting persons in 1964.

2. The heads of two animals were sent to the Wasserman Laboratory in Jamaica Plain for examination for Rabies. Both were negative.

3. There were no cases of Rabies in Arlington during the past year. I must call to your attention the steady increase in the number of bites year by year, with a sharp increase this year.

4. I want to again express my appreciation to the Board of Health and the Police Department for their excellent cooperation.

Respectfully submitted,

John J. Murphy, Jr., D.V.M.

Annual Report of the Department of Civil Defense

January 18, 1965

Mr. Edward C. Monahan
Town Manager
Arlington, Mass.

Dear Mr. Monahan:

In accordance with the By-Laws of the Town, I submit herewith the fifteenth annual report of the Department of Civil Defense.

Shelters Three additional shelters have been licensed this year. We now have a total of thirty one public fallout shelters. A list of forty additional sites have been forwarded through channels to the Army Corps of Engineers for survey.

Auxiliary Fire Department Auxiliary firemen were on duty at the firehouse for a total of 1,486 man hours. Of this time they gave 41 hours to actual responding and working at fires and sundry calls. In addition men responded in their own cars as fires occurred. This independent service was not logged, but at many fires auxiliary men were present and helped the regular fire department. In addition some served with the auxiliary police with the display for the safety drive. On Halloween they maintained a special watch on the lumber yard.

They have held four instruction meetings. These have included the showing of actual fire pictures. They also have had lectures by professional experts including one on the handling of atomic material.

We are extremely grateful to our Auxiliary Fire Chief, A. Henry Ottoson, who has directed all of these activities, and also each man who serves in the auxiliary. They are to be commended for the many hours of faithful service they have given to the Town.

Auxiliary Police Department This department under the able leadership of Captain John Y. Duggan served a total of 1,361 3/4 hours which was divided as follows:

Church Traffic Assignments	1,034 3/4 hrs.
Auxiliary Police Meetings	96 hrs.
Traffic Assignments for Parades	67 hrs.
Special Safety Detail	
Concord Pike	32 1/2 hrs.
Attending Regional Meeting	
in Medford	42 hrs.
Halloween Assignments	78 1/2 hrs.

These men are indeed worthy of praise for their readiness to assist in any police duty at any time.

On December 17th the Massachusetts Civil Defense Agency held a one day seminar at the Massachusetts Disaster Control Academy, Topsfield on Basic Information for Police and Fire Chiefs concerned with Radioactive Materials. Captain Eugene Del Gaizo, Training Officer of the Fire Department and Captain John Y. Duggan of the Police Department attended this seminar.

Communications In Arlington, the Director of Civil Defense also has the supervision and Maintenance control of the Local Government Radio Communications System.

This year two Solid State Tape Recorders, which were purchased on Federal Matching Funds Program, were added to the system. At the request of the Fire Chief equipment was installed in the Fire and Police Signal truck, which enables the Fire Department Dispatcher to blow the horn in any car by remote control. At the request of the Police Chief a mobile radio was installed in the new station wagon that replaced the motorcycle. A new transmitter, receiver and antenna was installed at Central Fire Headquarters. This new equipment makes Arlington part of District 13 Fire Department Civil Defense Radio Network. In an emergency help can be obtained from the Control at Newton Fire Headquarters or any city or town that is on the network. This equipment was also obtained with Federal Matching Funds.

All equipment is tested periodically under the terms of the maintenance contract to keep it at top efficiency. Complete records are kept on each inspection.

Surplus Property. During the year the following amount of surplus property was purchased.

<u>Government Cost</u>	<u>Our Cost</u>
\$32,483.57	\$1,434.10

Our outstanding purchases under this program this year were:

	<u>Gov't. Cost</u>	<u>Our Cost</u>
One 50 ton La Crosse Low Bed Trailer	\$ 3,500.	\$125.
One 8 wheel Flat Bed Trailer, which was used as a reviewing stand April 19th	5,507.	125.
Three Chevrolet 1/2 ton pick-up trucks	4,096.	125.
	<u>\$13,103.</u>	<u>\$375.</u>

Matching Funds. This a Civil Defense Program under which we are able to collect one half our electric costs and also one half the price of equipment for which we can present a justification that meets the approval of the Federal Agency.

Under this program the following collections have been made.

Electricity	\$ 144.00
2 Tape Recorders for Local Gov't Radio System	279.95
Local Gov't Radio System	<u>13,916.85</u>
	<u>\$14,340.80</u>

Public Law 85-606 This is a program which reimburses a city or town, that has met the necessary qualifications, approximately one half of their administrative and personnel expenses. Arlington has been certified by the State and Federal Government as eligible participants. Payments are made to the Town on a quarterly basis. This year a total of \$3731.61 was collected under this program. These checks are not added to the Civil Defense Budget but go directly to General Town Funds.

The total amount given to the Town Treasurer this year was

Matching Funds	\$14,340.80
Public Law 85-606	<u>3,731.61</u>
Total . . .	\$18,072.41

We are subject to federal inspections at any time, without advance notice. In June we had two. One, by a Mr. Corbett on equipment we had obtained through the Surplus Property Program and the other by a Mr. Burke on our PL-606 specifications. During the month of July Mr. Corbett came again for a Shelter Inspection. We received a perfect score on all inspections.

Arlington auxiliary police and fire personnel participated in the Governor's Safety Program over three holiday weekends; Memorial Day, Independence Day and Labor Day. An Arlington Rescue Truck was pre-positioned at the junction of Lake St. and Route 2 bearing signs asking motorists to "Slow Down and Live".

For the assistance and cooperation I have received from Town Departments and Civil Defense Volunteers my sincere appreciation. To you, Mr. Monahan, and the Board of Selectmen my sincere gratitude for your continued support in Civil Defense affairs.

Respectfully submitted,

John P. Dempsey
Director of Civil Defense

Annual Report of the Department of Veterans' Services

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Sir:

Submitted herewith is the twentieth annual report of the Department of Veterans' Services covering the calendar year 1964. Massachusetts laws make it mandatory that financial aid be furnished to needy veterans and their dependents who qualify for such aid and that there be made available to all veterans and their kin such advice, information and assistance as may be necessary to enable them to procure the benefits to which they are or may be entitled relative to employment, vocational or other opportunities, hospitalization, medical care, pensions, compensation, insurance and other benefits and must keep on hand current booklets and other printed matter pertaining to the statutory rights and privileges of war veterans provided by Federal and State laws. The first section of this report deals with the services provided and the second part with the financial aid disbursed to needy veterans and their dependents.

VETERANS' SERVICES

Photostatic copies made	2143
Documents notarized	26
Discharges recorded in the Town archives	17
Contacts made in furnishing counsel, information and assistance in prosecuting claims of veterans and their survivors and dependents and process- ing applications for all types of benefits	2251
Visits to hospitals, homes and other places	875
Letters, history entries and records	2438
Veterans Administration forms completed	360
Veterans Administration claims handled as agent for claimants	<u>75</u>
Total for year 1964	8185

Total of cash benefits accruing to Arlington
claimants from the Veterans Administration
through the efforts of this department \$33,000.00

Estimated total of money saved the Town by
reason of successful prosecution at the Veter-
ans Administration of claims of persons who
had applied for financial aid \$19,636.00

A tabulation of the administrative work connected with the disburse-
ment of financial aid to needy veterans and their dependents follows:

VETERANS BENEFITS AND BURIAL AID

Contacts (visits, interviews, etc.)	2251
Applications copied, history entries, records and letters	1656
Cases on rolls	
(a) settled in Arlington	147
(b) settled in another community	12
(c) State settled	1
Applications and re-applications for aid received	160
Applications and re-applications for aid accepted	73
Applications and re-applications for aid rejected	29
Applications referred to other communities	22
Applications pending	3
Refund cases	13

A tabulation of actual disbursements made to needy applicants for aid
during the year 1964 follows:

VETERANS' BENEFITS

State participation 50% of all authorized payments \$81,332.00

BURIAL AID

Chapter 115, General Laws of Mass. (needy cases)	
State participation 50% in all Arlington settled	
cases and 100% in all others	0.00

REIMBURSEMENT AND REFUNDS

Reimbursement by the State has, for the past two years, been made in full during the month of July for the total due for preceding year. In July of 1964, the Town of Arlington received State reimbursement for 1963 \$36,549.18

Refunds from persons who had received aid in 1963 2,189.00
\$38,738.18

Total disbursements for 1964	\$81,332.00
Refunds from above disbursements	2,215.00
Estimated reimbursement from State in July, 1965 ...	39,558.00
Net disbursement by Town for aid expended in 1964 ..	39,558.00

During the past year there were very few layoffs or labor disturbances affecting Arlington people. However, hospital and medical costs continue to advance and present a grave problem in budgeting for the needy. The steady increase in the cost of living brought about a budget increase of 5% for the year 1963 and another 5% for the year 1965. Despite the fact that the war periods are fading into the distance, there are still many calls from veterans and their dependents for help in meeting the problem of housing, insurance, employment, and to a degree, rehabilitation.

In conclusion, we wish to gratefully acknowledge the help and cooperation given us by the Town Manager and his staff, the members of the Board of Selectmen, the Personnel Board and their staff and to express our appreciation of the excellent work performed by the employees of this department.

Respectfully submitted,

James M. Coyne
Director

Annual Report of the Arlington Housing Authority

Board of Selectmen
Town Hall
Arlington, Massachusetts

Gentlemen:

The Arlington Housing Authority submits herewith its Annual Report for the year 1964.

At the Annual Election held on March 2, 1964 Mr. James A. Coffey was reelected for a term of five years.

At the Annual Meeting of the Authority held on March 10, 1964 the following officers for the ensuing year were elected: Joseph S. Vahey, Chairman; Thomas M. Kelly, Vice-Chairman; Edward J. Doherty, Treasurer; Myron D. Chace, Assistant Treasurer.

The Authority met regularly on Monday nights throughout the year as well as at many special meetings.

In addition to the operation and management of its presently existing 176 Veteran's apartments and 72 apartments for Elderly Persons, the Authority devoted much time and effort to the problem of providing additional apartments for Elderly Persons. Acting on an Article submitted by the Housing Authority, the Town Meeting voted to convey to the Authority a parcel of land on Cemetery Street for the construction of such apartments. This land was also zoned by the Town Meeting for multiple unit dwellings.

Pursuant to this action, the Authority met with the Division of Housing of the Department of Commerce & Development and obtained permission to design and procure bids for the construction of a seven story apartment building containing 100 specially designed apartments for Elderly Persons, together with incidental community facilities. This was the first time that the Division of Housing, under the State Housing program has approved this type of development, for which development there was allocated to the Arlington Housing Authority the amount of \$1,250,000.00. In November bids were opened and the contract for construction was executed and approved. At the end of December construction had started and was proceeding quite satisfactorily.

During the course of the year the Authority made a voluntary payment to the Town in the amount of \$6,336.00 in lieu of taxes, which is the largest amount permitted by law for such payments.

The Authority wishes to take this opportunity to thank the Town Manager and all Boards and Department Heads of the Town for their cooperation in various matters throughout the year.

Respectfully submitted,

ARLINGTON HOUSING AUTHORITY

Joseph S. Vahey
Thomas M. Kelly
Edward J. Doherty

Report of the Cemetery Department

January 8 , 1965

Mr. Edward C. Monahan
Town Manager
Town Hall
Arlington, Massachusetts

Dear Sir:

The Board of Cemetery Commissioners herewith submit their Annual Report for the year ending December 31, 1964.

During the year seven trees were removed by the Tree Department. These are to be replaced in 1965 by Rock Maples.

The driveway between the two garages was black topped.

Lots were sold and interments made in Plot CC in the new section. Approximately 400 more single graves were numbered and are now ready for sale.

The bridge over Mill Brook connecting the old and new sections was repaired.

There were 427 interments during the year.

We wish to express our appreciation to Town Manager Edward C. Monahan and all Department Heads for their assistance. We also thank Supt. Edward C. Preston and all employees of the department for their co-operation.

The following are the receipts of the Cemetery Department for the year ending December 31, 1964:

Sale of Lots and Graves	\$19,340.00
Annual Care	1,749.20
Foundations	2,965.35
Opening Graves	15,195.00
Miscellaneous	4,579.64
Perpetual Care	21,280.00
Income from Funds	18,779.24

Respectfully submitted,
Board of Cemetery Commissioners

Annual Report of the Engineering Department

January 6, 1965

Mr. Edward C. Monahan
Town Manager
Town Hall
Arlington, Mass.

Dear Sir:

In 1964 this Department performed the usual duties which consisted of processing ninety-seven building applications, assigning street numbers and checking the proposed grades of the buildings; checking and inspecting the work of privately-employed contractors doing work in Public Ways at sixty-seven locations throughout the Town; the drafting of six taking plans and instruments for sewer, water and drain installations; surveying for lines and grades and the drafting of record plans of sewer, water and drain installations at thirty-three different locations; calculating assessments for sewer, water and street-construction projects; preparing street acceptance plans with their legal descriptions; designing and supervising the construction or reconstruction of eight streets; estimating the costs of twenty-seven streets proposed for acceptance in 1965; drawing plans, sketches, etc. for miscellaneous projects, investigating accident - and damage claims and complaints, and providing plans, information, estimates, etc. for the Public and many other Town Departments.

This Department also drew the contract plans and specifications and supervised the installation of the Waldo Road outlet drain, the additions and revisions to the traffic signals at Mystic Street and Chestnut Street, the air-conditioning at the Robbins Library, the Police Station alterations in connection with the installation of the new Control Desk, floor tiling at the Robbins Library, new lighting in the Lobby of the Robbins Library, new plumbing at the Robbins House, roof repairs at the Park Circle Fire Station, a new basement entry, heating and flood lighting at the Dallin Library.

Traffic counts, studies and plans were made for the modernization of the traffic signals on Mass. Avenue from Mill Street to Franklin Street.

Annexed to this report is a list of public - and private streets and other statistics as of January 1, 1965.

My sincere thanks are extended to the employees of this Department and to all Town Officials for their cooperation and assistance.

Very truly yours,

W. H. Roby
TOWN ENGINEER

TRAFFIC SIGNAL DEPARTMENT

The Traffic Signal Maintenance Division is responsible for the installation and maintenance of all aids to the regulation and control of vehicular and pedestrian traffic on the public ways.

Measures adopted in 1964 to expedite the flow of traffic and to facilitate parking were as follows:

Pedestrian "Walk" — "Don't Walk" and traffic control signals were installed on Massachusetts Avenue at Churchill Avenue and Massachusetts Avenue and Lockland Avenue to afford safe walking for the High School students at crosswalks and relieve a traffic officer for other duties.

Grove Street widened from Massachusetts Avenue to Summer Street.

"Stop" signs were erected on Highland Avenue at Eastern Avenue and on Exeter Street at Rawson Road.

"One Hour Parallel Parking" signs were erected on the westerly side of Pleasant Street from a point opposite Swan Street to Maple Street.

Chandler Street was made "One Way" northerly, between Brooks Avenue and Massachusetts Avenue.

Modern street lighting was installed the entire length of Grove Street and Westminster Avenue. Street lighting was improved on Massachusetts Avenue from Forest Street to Paul Revere Road.

AUXILIARY POLICE

For their continued cooperation I wish to extend my grateful appreciation to this outstanding group of citizens. Their accomplishments during the past year are more fully set forth in the report of the Director of Civil Defense.

CONCLUSION

My sincere appreciation is extended to the Honorable Board of Selectmen, esteemed Town Manager, members of the Police Department, Town agencies and all others for their unqualified cooperation and support during the past year.

Respectfully submitted,

ALBERT E. RYAN
Chief of Police

ANNUAL REPORT OF THE PUBLIC SCHOOLS

To the Citizens of Arlington:

The Arlington School Committee views the 1964 school year as one which was characterized by significant movement toward its ultimate goal--the best possible education for every child commensurate with the community's ability and willingness to provide it. Needless to say, this is not an easy goal to attain. The many variables that must be taken into consideration before any action involving the schools can be undertaken staggers the imagination. Any action that involves nearly 9,000 boys and girls and over 500 professional employees cannot be taken lightly.

The Committee rightfully feels that its primary function is to provide the climate and wherewithal necessary to the attainment of good educational standards. In order to do this, it is necessary to attract teachers who are capable and dedicated to the betterment of education. Provision must also be made to have the needed teaching supplies and materials available when the occasion arises for their use. All this occurs as the result of careful planning by a devoted staff of contented workers. A smooth operating professional staff of teachers is the result of hard work on the part of many persons. We have such a staff and it is our duty to maintain it to the best of our ability.

The most capable staff in the world cannot operate without an efficient educational plant to house its ideas and actions. Adequate classroom space is fast becoming a real problem for the Town of Arlington. The School Committee recognizes the seriousness of this problem and has devoted much time to the discussion of it, and possible means for alleviating it.

The Committee is particularly concerned over the serious shortage of classroom space at the Stratton School. Temporarily, this problem is being resolved by bussing excess classes to the Hardy School. The long-range solution is a ten room addition to the Stratton School according to studies made by the Stratton P.T.A., the School Administration, and the School Committee. The Committee, therefore, intends to bring this matter to the attention of the March 1965 Town Meeting.

Unfortunately, the Stratton School is not the only school in Town that has a shortage of classrooms. The Brackett, the Locke, the Dallin and the Peirce Schools are already experiencing pressures for space. Additional classrooms will be needed by the fall of 1966 at some or all of these schools. The Committee is cognizant of this need and is already studying possible courses of action. Prudence decrees that the Committee makes it clear to the townspeople that additional classroom space will be needed so long as the pupil population continues to increase.

The year of 1964 saw the retirement of eleven long-term employees whose devotion to duty has contributed so much to the progress and improvement of our school system throughout the years.

Miss Nellie Anderson, Peirce School, retired in November 1964 after 35 years.

Mr. W. Ray Burke, Chairman, Business Education Department at Arlington High School, retired after 36 years to enter the field of business.

Miss Caroline M. Casella, Hardy School, retired after 38 years.

Miss Bernice V. Dodge, Supervisor of Vocal Music - Elementary Schools, retired after 39 years.

Mrs. Martha G. Hunt, R.N., Supervising School Nurse, retired after 39 years.

Mr. Augustus Mazzocca, Special Teacher, Instrumental Music - Elementary Schools, retired after 28 years.

Mrs. Edna C. Penwarden, sixth grade teacher of Academically Talented pupils, retired after 28 years, eight of which were in Arlington. Mrs. Penwarden had been chosen as the Massachusetts Teacher of the Year in 1963.

Miss Esther Russell, Hardy School, retired after 19 years.

Mr. Sydney Sandberger, Industrial Arts teacher at Arlington High School, retired after 42 years.

Mr. Charles Sheehan, Industrial Arts teacher at Junior High School East, retired after 33 years.

Mr. Charles W. Skinner, Science teacher at Arlington High School, retired after 34 years.

The year 1964 saw the passing of two beloved long term teachers.

Miss Mary A. Delahunt, Mathematics teacher at the Junior High School West, passed away after 35 years of devoted service.

Mrs. Rilla Gardella, Cutter School, passed away after 34 years of faithful service.

The school system was saddened by the untimely passing of Mr. Walter E. Keady this past summer. Mr. Keady came to Arlington in 1959 as a teacher of Mathematics at Arlington High School.

The Committee realizes that the success of a school system depends upon a loyal and dedicated staff. It, therefore, wishes to take this opportunity to express its appreciation to all those people who have given so generously of their time and energy to make our school system what it is today.

We extend our thanks to the Town Manager and other Town officials for their help in all school matters in which they were involved.

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS
FOR THE YEAR 1964

To the School Committee of Arlington

Ladies and Gentlemen:

It is my privilege to submit for your consideration the following report of the schools for the calendar year 1964. It is impossible for any one report to adequately encompass the many activities in which our schools are involved so an attempt has been made to include only the newer phases of our program or those of greatest public interest.

The School Committee received during the year 1964 \$65,822 under Public Law 874. The Committee chose to use these monies as follows: the purchase of Data Processing materials, SMSG Mathematics materials, Consultants for Psychological Counseling, Science and Mathematics, summer project for two Teachers and a Principal at the Harvard-Lexington Summer school project on In-Service Training Primary Enrichment Program (PEP), the STEP Program for potential school drop-outs, and the deficit in the Instructional Services in the textbook budget and the unusually heavy drain on the teachers' sick leave account. The School Committee, at the request of the Finance Committee, voted to return the sum of \$15,000 to the Town treasury to offset teacher salary adjustments for the year 1964.

Historically, this country has always turned to education to meet the needs of the day. Throughout much of the nineteenth century the struggle to establish free public schools was a burning issue in countless localities. This battle was won and with it was ushered in the greatest period of growth and prosperity ever known to man. Free public education was the base that nurtured the real growth of popular self-government, the development of the hundreds of skills needed in our economy; and provided the know how for "Melting" millions of people from many diverse national and cultural origins into the main stream of American life.

The movement was successful but as we enter the third quarter of the twentieth century voices can be heard throughout the land wondering if we can afford a first rate education for all American youth. Walter Lippmann, writing in the October 15th issue of the Washington Post, decried this practice when he wrote,

"My own belief is that in the days to come our paramount duty is to persuade the American voters that a second-rate system of education is no more tolerable than a second-rate system of national defense. If this nation is to succeed and flourish as it ought to do, the day will have to come when the American people will be as willing to tax themselves for good schools as they are today for good nuclear missiles. For they will realize that they are quite able to afford both."

We of the Arlington Public Schools are faced with the awesome responsibility of providing today's children with the tools they will need in tomorrow's world at a cost that is commensurate with today's taxpayers' willingness and ability to pay. We can be sure that tomorrow will be an age of galloping technology, when we stop to consider, that "over 90 percent of all the research scientists who have ever lived are still alive today, and that about half the research and development money spent in all the history of the United States was spent in the last eight years." All this simply points up to a truth which is so much a part of our daily experience that we tend to ignore it. "The most important capital that any economy possesses is in the skills which people carry around in their heads." Good education is not cheap and it never will be. Even poor education is not cheap for the cost of wasted human lives is expensive.

OUR ELEMENTARY SCHOOLS

Certainly one of the most important, if not the most important, skill we can impart to any youngster is to learn to read to the best of his ability. Reading is the key that unlocks the storehouse of knowledge for our pupils.

The primary goal of our reading program is to help each child develop the ability to think in a reading situation. Reading is the staple in our instructional program, a base on which all learning is built. Learning to read and reading to learn are actually inseparable. As the content becomes increasingly difficult, so the ability to read becomes more demanding. Reading is a continuous growth process. It is, therefore, possible for all students, even good readers, to improve their reading abilities. This is why developmental reading programs extend through the college level today.

Through the use of our recently adopted system of using three different basal readers in each classroom, we have been able to more effectively reach each student's reading potential. This method enables each group to advance at its own rate and children with similar problems may be grouped together.

It is pleasing to note that this method has made it possible for some of our fast moving readers to complete the basic requirements of their basal reader by mid-term. They then move into a semi-individualized reading program for the balance of the year.

Individualized reading permits self-selection by the student, with the teacher's guidance, from available library books. There is a very careful follow-up by the teachers as each student using this program has the responsibility of interpreting the story of every book read to the teacher. The teacher requires not simple surface responses but responses that show depth of understanding. As this type of program demands unusual training and dexterity on the teacher's part not all teachers are able to effect maximum results from the method.

Reading is a continuing process so as the child progresses through the grades the process intensifies in degree. Reading, as such, may be defined as "a developmental, functional and recreational process." The developmental phase is concerned with the improvement of the basic reading skills; the functional phase, which includes all types of reading, is concerned with the ability of the reader to obtain information and to apply it to the situation at hand; the recreational phase is concerned with reading activities that center around enjoyment, entertainment and appreciation.

In our efforts to improve our reading program, and to provide for individual needs, we are participating in a reading project with Harvard University. The Harvard-Arlington Instructional Van is being used this year to try a new method of helping the slower readers by making use of a laboratory approach to reading. A selected group of youngsters, from each elementary school, makes two visits a week to the Instruction Van. The lessons are based on filmstrips, films, and a tape recorder so that children may develop their visual and auditory perception together as they correct their reading problems.

This past summer, as we have for many previous summers, there was a special program in reading for pupils at the Summer Institute. This program was designed to provide six additional weeks of concentrated work on the basic reading skills. It was open to 150 youngsters from the town (public, private or parochial pupils) on a first come first served basis. Attendance was voluntary and the only requirement was that the pupil be recommended by his classroom teacher as a student who would

benefit from such a concentrated program. The basic reading skills which were reviewed and retaught, where necessary, included increasing word recognition, developing word meaning, strengthening phonetic skills, improving comprehension and study habits. This latter skill, study habits, is often responsible for a child's lack of progress in school work. This is an area where the parent and the school can cooperate closely. The school can provide the skill but the parent must provide a quiet place to study and put this skill into practice.

The second of the three R's - "Writing" (riting) has received new emphasis this past year. The process of programmed learning has invaded the field of handwriting. Dr. B. F. Skinner, former professor of psychology at Harvard, and at present on a five year research grant, is developing a handwriting system he calls the "Write and See Method." This project is being tested at the Brackett School under the supervision of Dr. Skinner, his research assistants and the classroom teachers.

The children use special pens which make a blue line if the writing is done correctly or a red line if the letters are formed incorrectly.

Dr. Skinner, a pioneer in programmed learning, believes that good handwriting will be more easily achieved when the child learns immediately whether he has made a good letter or not. It is the immediacy of reinforcement which stimulates a child to move ahead with greater confidence and satisfaction. The children reflect this stimulation by continuing to work without having to be coerced in the usual way to "get to work."

The third "R" (arithmetic) continues to receive a good share of our attention too. For the past four years we have been engaged in training our staff in the principles of teaching arithmetic by the SMSG (School Mathematics Study Group) method. We have also gradually introduced this method to our students so that this year all students in Grades I through XII, if they are taking mathematics, are receiving some SMSG Mathematics. This method differs from the traditional mathematics in that it stresses the method or the why of mathematics rather than the how as formerly stressed. It is too early to statistically assess the effectiveness of the program but this much can be said. Our best youngsters are receiving test scores higher than ever before, our average students are doing as well, even a bit better than before, and our poor students are doing no better but they are enjoying the subject more. For an indication of the widespread use of the SMSG method it may be noted that 60% of the schools throughout the country are using some form of it.

This year we are commencing a long-range program for improving our elementary science offerings. At present, every school has been provided with a science kit which permits the teachers to perform simple classroom experiments appropriate to the grade level. These experiments are best suited for Grades I through IV.

Our elementary school science consultant offers a special program in natural science to the fifth grades. The subjects covered are often seasonal in nature so that a variety of specimens may be taken into the classes. Lessons are given on insects, trees, rocks and minerals, live animals, and the study of different types of habitats.

Grade VI pupils study physical science. We are in the process of examining what aspects of physical science are most suited to these youngsters and within our means to provide it. A consultant from a neighboring university has been engaged to work with our staff on this problem. Certainly, basic problems in all curriculum activities include: the amount of time available, the availability of necessary materials, and lastly, the ability of the staff to carry out the program. This latter point is a

difficult one to resolve as knowledge in science becomes obsolescent so rapidly.

The teaching of a foreign language, French, continues to occupy our attention at the elementary level. All Grade V pupils are learning to speak French by participating in the Parlons Francais program of Channel II. There are two fifteen minute telecasts per week. The classroom teacher gives systematic reviews during the week of the most important items taught via television. In addition, the elementary French teacher visits each fifth grade class every sixth Wednesday to give a comprehensive review lesson and to assist the teacher with ideas and suggestions for future follow-up activities.

There are 202 pupils in Grade VI learning conversational French this year. These pupils were selected on the basis of their Grade V teachers' recommendations, their test scores in Grade V, their better than average progress in reading, language, spelling, and by the subjective rating of each pupil made by the elementary French teacher.

We have been exploring, examining and studying the elementary French program for nearly five years now. We have concluded that television is not a substitute for a good teacher, but it is a complement to good teaching and a boon for exploratory experiences. Therefore, unless further evidence decrees otherwise, our elementary French program will continue in the future as it did this year. All children will be exposed to the experience of learning a foreign language via television and with it receive the resultant concomitant learnings that go with it. Those youngsters who show real proficiency will continue on with the subject in Grade VI. The other youngsters will devote more time to the basics in our curriculum. Adequate provision is made for the student who blossoms late to start a foreign language in either the junior high school or in the senior high school.

The need for reassessing and revitalizing the instrumental music program has been apparent since 1960. Since that time new instruments have been purchased both in quantity and quality. As a result, hundreds of Arlington school children have been given the opportunity to study a band or orchestral instrument. This program has been successful, so successful, that a change in policy is now necessary due to the over-subscription of instruments. It has been our policy to permit all students to rent instruments at a nominal charge. This policy has been in effect throughout all of the grades in the public schools. However, as the students become more advanced and continue on through junior and senior high school, the problem of providing instruments for beginning students becomes apparent. Therefore, beginning this year, certain instruments may be rented from the Music Department for a two-year period only. Students who desire to continue on these instruments, after their second year, must thereafter provide their own instrument.

Furthermore, free instrumental music lessons will be available only to pupils in Grades IV, V and VI. When the student reaches junior high school he is expected to seek private instruction from a qualified instructor. Although several opportunities in bands and orchestras are available to the instrumental student in our secondary schools, the lack of time, facilities, and instructors will not allow for instrumental lessons at this level. This policy is in keeping with our intention of providing certain exploratory experiences for all students, and additional opportunities for pupils with particular talents.

This year an additional elementary art teacher has been added to our staff. As a result, our program can now delve deeper into real art concepts and possesses more continuity. More varied media are now being explored. Pastels and charcoal are being used in addition to crayon work. Furthermore, some of the basic understandings of the graphic arts are being pre-

sented, and additional experiences with ways of using paint are being introduced. The student response has been excellent and we look for even greater progress in this area in the future.

Each year the value of our Psychological Counseling Department becomes more apparent to the members of the teaching staff, our students and their parents. This year a rather interesting in-depth study of the interpersonal relationships of pupil, social worker, teacher, and principal was conducted at the Thompson School. This study was undertaken by our own staff, aided by the Simmons College School of Social Work group who are working with us under a special grant.

Our two speech consultants conducted a complete resurvey of all speech pupils this year in order to plan their services more effectively. The two hundred most serious cases were separated from those with mild speech disorders. These pupils with the greatest difficulties receive two twenty-minute speech sessions each week. Some of these pupils receive individual treatment as well. Boys and girls with mild speech problems are checked once a month as this usually represents a follow-up activity to reinforce previous gains made in correcting speech defects.

A good school system is never content to rest on its laurels. It strives to make a good program an excellent one, and this, in effect, was our aim with the Primary Enrichment Program. An exciting experiment in teacher training was undertaken this summer by ten of our elementary school teachers and three principals. This program was noteworthy in that the previous summer the three principals and two teachers had attended the Harvard-Lexington Summer School and they were now ready to share their experiences with other teachers and pupils. The teachers engaged in an intensive seven day training program of learning about the techniques of team teaching, individualized reading and teaching social studies through inquiry. Cultural arts were also coordinated with the reading and social studies.

The program also involved 150 pupils who would be entering Grades 2, 3 and 4 in September. Descriptive brochures of the program containing pupil application forms were distributed on May 1st. Applications were accepted in the order received and the first fifty pupils for each grade level were selected, including applicants from public, parochial and private schools. Others were placed on a waiting list.

The tuition free program was conducted at the Hardy School from July 1 to July 30. The theme of the program was Four Faces of Man.

Man, the Reader	Man, the Toolmaker
Man, the Funmaker	Man, the Worker

The real success and worth of this undertaking was most evident this fall. Teachers who had participated in the summer program were using many of the ideas and techniques in their regular classes. This pilot program may well be the forerunner of many such in-service training programs. We are learning in education that it is no more realistic to expect teachers to keep abreast of changing techniques at their own expense than it is for industry to expect it of their workers and scientists. As a result, education is following the example of business in running in-service training programs.

Surely, no report on the activities of our elementary schools would be complete without mentioning the fact that one of our teachers, Mrs. Edna Penwarden, was chosen Massachusetts Teacher of the Year by the Massachusetts Department of Education. This honor received by Mrs. Penwarden is one that the schools are proud of and justly so. Not only is it recognition of a great teacher but recognition of a school system which provided the

pupils and wherewithal with which she worked. Arlington is proud of Mrs. Penwarden and the award she won.

JUNIOR HIGH SCHOOLS

Over the past few years, as our schools have grown in both size and quality, the administration has been concerned whether we were losing the personal touch so essential to good education. The junior high schools found themselves in a particularly sensitive position as they are forced to bridge the gap between the self-contained classroom of the elementary school and the highly centralized departmentalization of the modern comprehensive high school. As a result, an effort was undertaken this year to revamp the student orientation program.

In June the principals visited each elementary school and gave a talk to the sixth grade pupils describing the program of the junior high school, its practices and its rules. The children tended to respond well because they were "at home" as they first experienced the broadening educational scene. In some cases local elementary Parent-Teacher Associations also requested this type of meeting for parents for future years.

In the fall, on the first day of school, an assembly was held for the seventh graders. The program consisted of a greeting from the principal, the introduction of the guidance counselors and a brief overview of the school rules. Each pupil was given a school handbook. This innovation proved to be most successful, and as a result, requests from other school systems for copies have been received. Each homeroom teacher then took the pupils, assigned to her, on a tour of the building. Special teachers (physical education, music, art, etc.) were available to explain their programs to the pupils on the tour. As this orientation came when the pupils needed it and were interested in it the results were gratifying. One obvious result was one of the smoothest opening weeks of school we have ever had in our junior high schools.

Since independent study becomes important and necessary at the junior high level, and increasingly so at higher levels of learning, considerable time was expended by our junior high schools in teaching all prospective college bound pupils the techniques of research. To achieve this, the team approach was used and all the teachers of English, Social Studies and Science were involved. It was the task of the English teachers to teach the actual writing techniques while the other subject field teachers, along with the librarian, cooperated in the selection of subjects. In addition, they stressed the use of reference books and other resource materials. Several short "trial" research papers were completed by the pupils as a training device. An additional end result proved to be a decided increase in the use of the school libraries.

The field of science received particular attention this year in our junior high schools. Under the provisions of the National Defense Education Act two science classrooms at one school and one at the other were completely renovated and equipped with modern science facilities. In keeping with the trend of making science more real to the student, emphasis was placed on pupil participation through experiments and demonstrations.

One year ago the decision was made to include more science in the junior high school curriculum. This has proven to be a wise choice and especially so, now that our new equipment is installed. Pupils are gaining scientific insights through the actual application of them rather than by second hand experiences from books and teacher lectures. As scientific knowledge is proliferating at a dizzy pace, it is extremely difficult to keep

up-to-date textbooks for our pupils. A textbook is probably dated the day it is published as the material it contains was based on research, at least, two years old. This problem, plus the increased publishing costs, poses a real dilemma for us. One method used to mitigate this is by the use of monographs and paperback books. Another way is to use films and filmstrips which are available in quantity. This permits the alert teacher to keep himself and his class abreast of current information.

The junior high school mathematics program continues to grow in scope and sequence. All pupils are receiving some instruction in the newer mathematic techniques. The more able students are involved with the SMSG (School Mathematics Study Group) method at least three days per week and with traditional mathematics for two days. This combination permits the pupil to improve his skill in the problem solving techniques of the modern math without unduly affecting his computational skills stressed by traditional mathematics. Test scores achieved by our pupils indicate that our pupils are doing well and that we can expect to see continued improvement in the field as we gradually phase into the newer math.

The Junior High School of Industrial Arts, though small in number, provides a most important function in our total school program. It is designed to provide these youngsters with certain marketable skills upon the completion of their studies with us. In addition, it permits a limited number of students to enter the senior high school on a program geared to individual pupil needs. Several of these students went on to further training last year in such diverse fields as: food handling, hair dressing, sewing and general manual arts. These pupils receive a certificate rather than a diploma upon completion of high school.

This fall the total junior high school enrollment took a decided upward swing. Allowing for normal growth, and the influx of students from other schools, the administration was surprised to learn that we had seventy five (75) more students than was anticipated. This growth can be attributed to the in-migration of families with youngsters at this age level. Such a development cannot be foreseen by school authorities. While one year provides insufficient data from which to draw inferences this phenomena will be carefully watched. If this should turn out to be a trend we will have serious problems of space at our junior high schools in the very near future.

SENIOR HIGH SCHOOL

This year, for the first time in history, the Arlington High School has been forced to operate on the two-platoon system. Grades X, XI and XII are scheduled from 7:30 a.m. to 12:15 p.m., while Grades IX is scheduled from 12:20 p.m. until 4:30 p.m. While this arrangement is far from perfect it is the ever-lasting credit of the pupils, their parents and the teachers that it has operated as smoothly as it has this fall. It would be unrealistic to assume that this makeshift arrangement has not had some adverse effects, but it is believed that they have been kept to a minimum.

Despite the problems caused by a two-platoon school, significant progress has been accomplished in several curricular areas. There has been an increase in the number of classes using SMSG Mathematics materials. There has been an additional subject added to the Science Department, Earth Science. A section of biology has started to use the highly recommended BSCBS materials. A chemistry class has been inaugurated that uses the newly created Chemical Bond approach to the teaching of the subject. In addition, an advanced placement course in mathematics and one in Latin has been introduced into our curricular offerings. Advanced placement permits a pupil who satisfactorily completes the course and a special examination to receive credit for this course at the college of his choice.

This year the extra curricular activities have increased in number, student membership and program. Unfortunately, because of the double session, there is a curtailment of these offerings to the freshmen. It is in this area (extra curricula activities) that there has appeared to be the greatest hindrance to student participation by double sessions. Freshmen football has also suffered from the problems inherent in a two-platoon system.

The high school principal and his staff have spent considerable time and energy discussing the problem of student control. Believing that parents must be more concerned over the attitudes and conduct of their children they (the parents) have been called upon to a greater degree at the first indication of unsatisfactory behavior on the part of their son or daughter. In keeping with this philosophy the penal detention period has been partially eliminated through the much earlier involvement of the parent.

For the second year, student programs have been developed through Data Processing. Data Processing has proven extremely helpful in refining the program and giving the individual teacher, on the first day of school, information regarding her class and the students taking each course. This is a new innovation which was not possible in the past because of the amount of time involved. The reporting of students' grades and the distribution of each teacher's marks was done again this year by our electronic equipment.

We are now in the process of beginning to record school attendance by our computer and will soon publish the daily attendance bulletin with this equipment. This is one of our answers to the critics of education who charge that professional personnel are spending valuable time in detail work that other, less expensive, personnel could do. As we become more "computerized" it becomes increasingly evident that we are merely scratching the surface of the possible services that computers can economically provide to education. Much research that has hitherto been ignored, or relegated to universities, can and will be done by our schools in order to improve our educational offerings.

The students and faculty have expressed their pleasure at the renovation work done in Building A, our oldest building in the high school complex. A complete new bell and clock system has been installed. New lavatories have been installed to replace those facilities with which the building had been equipped originally and had become antiquated. Rooms have been painted and new furniture installed. A study is being made of the heating problem inherent in Building A. When this study is completed and its recommendations are implemented, we should have a modern and most adequate facility in this building. This will have been accomplished at considerable less cost to the Town than replacing it with a new building. To date, students have responded by keeping these facilities in excellent condition. Hopefully, we of the administration feel that this is their way of showing appreciation for a job well done.

This year in order to facilitate the articulation between grade levels (I- XII), a teacher of English, at the high school, has been appointed Coordinator of Language Arts. His job is to correlate the content of language (English) in Grades I through XII. Currently, he is responsible for the supervision of secondary school English teachers, new to Arlington, and their orientation to our program. This move has already resulted in a noticeable improvement in instructional procedures in English.

The Social Studies Department, cooperating with the Graduate School of Education of Harvard University, is modifying its ninth grade course in Citizenship Education with the object of helping students analyze and understand the values affecting their thinking and actions. In recognizing more

clearly the nature of their own conflict and anxieties, it is believed that the students may in turn develop values and behavior patterns consonant with the moral habits and disciplines which are a necessary foundation for successful democratic citizenship. This belief, like many others concerning the social sciences, can only be proven by time.

The Mathematics Department is continuing to cooperate with the National Longitudinal Study of Mathematical Abilities (NLSMA) which is being conducted in 250 selected school systems throughout the country. Arlington is in its third year of this five year study which is endeavoring to find out how pupils respond to the new mathematics. So far, it seems to indicate there is a greater interest and enthusiasm by pupils for mathematics than ever before.

This year for the first time the Mathematics Department is offering an Advanced Placement Course. This course, by reason of content, is open only to those seniors who have demonstrated a real facility for the field of mathematics. Upon successful completion of this intensive course, the grades received will be sent to the college of the pupil's choice for their consideration and action.

During the school year 1963-64 the Modern Foreign Language Department adopted a new and modern series of texts for the French program. This adoption was the result of several years of study and examination of the various series on the market. These texts are planned for those who are beginning the study of French and also is readily adaptable to the needs of students who have been introduced orally to French in the lower grades, and are now ready to consolidate the language patterns they have learned.

An extensive tape program, designed to strengthen the student's ability to understand and to speak the language accompanies the text and has been adapted for use in our language laboratory.

Plans are currently underway to provide a German III class in the 1965-66 school year. This will provide students who have an interest in and a need for German with the necessary college entrance requirements for a foreign language.

The Manual Arts Program continues to grow each year. An over-subscription by students for Mechanical Drawing I has resulted in a necessary curtailment of the full year's course. In its place there are now two highly intensified 1/2 year courses in the subject. Admittedly this is a stop gap solution but it is hoped that this situation will be remedied when the new addition to the high school opens sometime around the first of the year 1965. The additional teaching station plus an extra teacher should handle the increased demand.

The School Committee, in cooperation with the Maintenance Department, has continued its long range renovation program at the High School. This work has been alluded to in greater detail previously in this report. However, prudence decrees that it be made a matter of public record that the modernization program at the high school is not completed. When the heating problem is resolved in Building A this building will be up to acceptable modern standards. At the same time Building B (built in 1931) is now in need of attention and renovation. While the need here is not as great as was the case in Building A, it should not be delayed. Experience has taught us a costly lesson. It is poor business to postpone repairs for any length of time as the dollar costs increase greatly each passing year to say nothing of the costs in inconvenience and inefficiency of operation.

ARLINGTON TECHNICAL AND VOCATIONAL HIGH SCHOOL

Keeping abreast of the rapid technological changes in industry and maintaining a constant vigilance to prevent obsolescence of training equipment are the two major problems encountered in administering a technical training program. These factors are resolved by making a thorough evaluation of each department every three years, followed by recommendations for adjustments in curriculum, and the addition or replacement of training facilities where necessary.

In line with this policy during the past year an additional new lift was purchased for the automobile shop to accommodate the smaller cars and new lubricating equipment replaced obsolete apparatus which had been in use for many years. A new brake drum lathe was purchased replacing a similar unit which had become worn beyond repair. A course in automatic transmissions was adopted as an automotive laboratory subject and the necessary equipment was obtained to perform this type of instruction. Equipment was also procured so that the course in automotive drafting could be upgraded and modernized.

Additional space was allocated to the Technical and Vocational School for related and academic instruction thus alleviating a classroom shortage which has been prevalent for some time. This allows for the accommodation of an expanding enrollment prompted by high school graduates seeking admission to the school. In addition, a physics lab was set up and equipped to help fulfill the needs of those contemplating better than average employment in industry or post secondary technical education after graduation.

Three classes, functioning under the Manpower Training and Development Act, were graduated during the past year. These courses are sponsored by the Federal Government at no expense to the Town and students are taken from the unemployment rolls and retrained for a semi-skilled and gainful occupation. Classes are conducted after the regular school day using teachers from the Arlington system on a part-time basis whenever possible. Thirty-five women were trained to become clerk typists and thirteen men were certified as advanced lathe or milling machine operators. It is our understanding that all were placed on jobs by the Massachusetts Department of Employment Security.

ARLINGTON TECHNICAL INSTITUTE

A pilot program in Electronic Data Processing started in September 1963 is proving to be extremely successful. Seventeen of twenty-one students will complete the first two semesters by June 1965 and fourteen had been admitted for the third semester in September of 1964. At the present time thirty-five are enrolled in this course.

This is a post secondary course, the objective of which is to train persons to become programmers or systems analysts. A shortage of skilled personnel exists in this field making employment opportunities numerous at lucrative salaries. Applicants are carefully screened and only those with exceptional qualifications are accepted for admission. It may be possible for us to award an Associate Degree to successful graduates in the future. To date, the program has been financed with Federal Funds.

ADULT EDUCATION

Since the end of World War II Adult Education has been growing rapidly in the United States. As the life span of our citizens increases and the demands for their labor decreases, there arises a surplus of leisure time. In an effort to put this time to enjoyable and profitable use Adult Education

has come into its own. A smaller, though respectable number of adults, use the program to prepare themselves better for their present jobs in society.

Arlington has long been recognized for its program in the field of Adult Education. As an indication of its success the enrollment increased by three hundred over the previous year. On any one evening there are almost as many adults using our facilities as there are students using them during the day-light hours. In fact, in the areas of business and home economics, it is considerably greater.

Each year a survey is made of the citizens of Arlington in regard to the types of courses they would like to see offered in the future. Several new courses such as SMSG Math for parents have been introduced as a result of this survey. Courses are offered when there is a demand for them if they can be met through the funds, the staff and the facilities available to the schools.

PUPIL PERSONNEL SERVICES

The Psychological Counseling Department sees as one of its major goals the restoration of the learning capacity of children whose intellectual abilities have been blocked by emotional difficulties. To this end, the help and cooperation of teachers and parents are constantly sought because of their vital impact on the child's emotional life.

The work of the Psychological Counseling Department involves three main types of pupil referrals. The most predominant are youngsters who fail in school despite average or above average learning ability. The second largest group includes children who present behavior problems in the school, at home and in the community. The third group involves youngsters who have difficulty in relating to other students and adults. Often times pupils may present a combination of these problems as well.

The total staff of the department is comprised of two full-time psychologists, two full-time social workers, one part-time psychologist and a psychiatric consultant. In addition the department cooperates with area colleges and universities. The Simmons College School of Social Work Unit, which was established in the Arlington Public Schools in 1961 under a grant from the National Institute of Mental Health, now includes six social work students and a faculty supervisor. Harvard University, this year, placed two doctoral students for their internship with us and Boston University sent one. These doctoral candidates obtain practical experience in diagnostic testing of individual children, in play therapy techniques, and in teacher-family counseling.

The high school Guidance Department reports that many parents are concerned with the questions, "Will my son or daughter be admitted to college from Arlington High School, and what are the scholarship possibilities?" Part of the answer is as follows. Arlington High School sent in September 1964 the largest proportion of its graduating class to four year colleges in the history of the school, while the total seeking higher education was the second highest on record. 38.1 percent of the Class of 1964 are now studying at four-year colleges, compared with a previous high of 35 percent sent last year. The total seeking higher education is 67.7 percent. Although competition for college admission is keener than ever before, members of the department have met the challenge to provide guidance services which have helped to make possible the admissions record established by the Class of 1964. In addition to full-time education, 14 percent of the total employed are taking part-time education making a total number of graduates taking full or part-time education 71.4 percent of the total class of 486. A large proportion of the students attend school in the Boston area which allows them to live at home.

Effort to interest students in teaching, nursing and the technical fields is continuing. The Guidance Department helps students with their decisions to enter the nursing profession by encouraging volunteer work at such hospitals as Symmes, Mt. Auburn, Bedford V.A. and others. It is felt that as a result of this volunteer work there was an increase this year in the proportion of students entering the nursing profession. A larger percentage of our students are entering the teaching profession than in many local schools, and there is increased interest in the new programs offered at the State Colleges. Several of our recent graduates are enrolled in the Data Processing Course at the Arlington Technical Institute this year and this number is expected to increase each year.

The Class of 1964 surpassed all previous scholarship grants from sources outside the town, with a total of \$46,000, the largest ever received. The grants varied from \$100 to \$2,500 a year. Most of them are renewable, if a student continues to do well in college. Total grants from some of the more prominent colleges were as follows: Harvard, \$4,400; Dartmouth, \$4,850; Tufts, \$3,600; Boston College \$3,800; Northeastern, \$3,520; Simmons, \$3,300; Boston University, \$2,600; Bowdoin, \$2,100; Bates, \$1,800; Amherst, \$1,350 and Princeton, \$1,100. In addition, local scholarships, including the Thompson Fund, totaled \$15,000. We are all aware that tuition costs appear prohibitive to many parents, but it should be encouraging to them to know that the estimated value, on a 4 year basis, of the scholarships earned by the Class of 1964 is \$175,000. The Guidance Department was directly responsible for bringing scholarship information to the attention of these pupils and for following through with colleges concerned.

Again this year, Arlington High School was awarded three full scholarships by the National Merit Scholarship Corporation and twelve members of the class received letters of commendation, a record which was not surpassed by any comprehensive high school in New England. All three Merit winners had participated in our Academically Talented Program, and it is evident that they benefitted from the courses of study which were included in the program.

The Job Placement Bureau, operated by the Guidance Department, provides a most important service. The department feels strongly that students who are terminating their education are just as deserving of assistance as those who are going on to college. The calls for full-time employment have far outnumbered the students available for placement. The continued good relations with the Greater Boston employers, and the quality of training provided by the Business Education Department, have made it possible to place a large number of students each year. Of the Class of 1964, 129 or 26.6 percent of the class are employed. Of these, 82 percent had been placed by the Guidance Department.

For many years we have been proud of the social conscience displayed by our students. This year was no exception. The department cooperated in assisting with a local Summer Program for Mentally Retarded Children. High school students volunteered their services with the mentally retarded program on the playgrounds and on field trips. It proved to be valuable to all participants and several of the volunteers have now become interested in becoming teachers in the field of Special Education. This cooperative venture illustrates graphically how the school attempts to inculcate the ideals of service in the community in a practical manner.

A Look To The Future

"The future belongs to those who prepare for it." This aphorism is just as true as the day it was written and has particular germaness to the Arlington Public Schools. Our system is a good one and will remain a good one provided we plan for tomorrow's education today.

Predicting what the future has in store is always a hazardous undertaking and it is especially so when one attempts to forecast pupil enrollments at a specific school. Over the past few years our success in estimating pupil enrollments for the Town as a whole has been good. Unfortunately, the growth patterns that have emerged follow no predictable path. Several years ago Planning Associates (a professional firm of Town planners) predicted that the future school population growth would occur in the east end of town while the west end would tend to have less growth. Just the opposite result has occurred with the most pupil growth occurring in the Brackett, the Dallin, the Locke, the Peirce and especially, the Stratton School. Meanwhile, there was little growth in the Hardy or Thompson Schools.

The School Administration in November 1964 completed a study of future needs. It has been established beyond any doubt that a 10 room addition will be needed at the Stratton School as soon as practical. Acting upon this information the School Committee will insert a warrant in the March 1965 Town Meeting requesting preliminary plans for an addition. These recommendations are based upon figures obtained by a door to door canvass of the Stratton School district by the Stratton P.T.A. in cooperation with the School Department. Currently one entire grade of three classes is being bussed to the Hardy School from the Stratton School. Based upon the number of students already with us this number will increase yearly from now on. For this reason, the School Department feels professionally obligated to go on record requesting a 10 room addition to this school.

Any problem involving overcrowding concerns more than one school alone. The overall picture must be examined carefully before any action is contemplated. Overcrowding can usually be resolved by one of the following solutions: larger classes, more intensive use of the present structure, busing, redistricting, a two-platoon school, or by an addition to the existing structure. These alternatives have all been carefully examined and discarded, except the addition, since the others offer temporary solutions only. The problem of overcrowding at the present Stratton School is one that will be with us permanently or as far as anyone can predict. The need is there.

The schools adjacent or near to it offer no permanent solution either. In fact, they have serious problems of over-enrollment themselves. The Bishop School currently has one empty classroom which may be utilized in September 1965. The Peirce School by utilizing all available space will be able to handle its enrollment for the 1965-66 school year. However, beginning in September 1966, it will need 1 classroom more than this need will continue for years to come. The Dallin School will be using every available classroom to capacity by September 1965. It has been suggested in several previous reports that an addition will be needed here. This suggestion has merit for if additional space were made available, some relief could also be afforded the Locke and even the Brackett Schools by redistricting. The Brackett School is already housing one class in the auditorium and may have to house an additional class there in 1965. When the building was built some provisions were made for extra rooms in the basement of the school. The School Department hopes to be able to use this space in 1965 if rooms are constructed there.

An alternative to additions at the Dallin, Locke or Brackett Schools is the use of mobile classrooms. The possibility has been investigated and seems to possess real merit. They would provide modern serviceable classrooms at a cost comparable to bussing students elsewhere. Furthermore, bussing is only a temporary answer to the problem of overcrowding as eventually there just will not be enough classrooms available in the Town. Mobile classrooms do not appear to be the answer at the Stratton School as the number needed would be too large for the site and the need is for permanent relief. A two-platoon school would resolve the space problem at this school, but would certainly result in a diminution of educative experiences for all concerned.

As near as can be determined, at the present time, the schools serving the center of town and the east end will be able to handle normal growth patterns. There are at present 3 empty rooms at the Cutter School, 1 empty room at the Parmenter School, 3 empty rooms at the Hardy School now being used by the Stratton School, 2 empty rooms at the Bishop School, and 1 empty room at the Thompson School. Crosby School has no empty rooms but could absorb some growth within existing classes. If additional growth were to occur this might be resolved by shifting pupils to the Hardy or Thompson Schools. The latter two schools should have some space available according to present growth trends for some time.

A growth in pupil enrollment brings with it the need for additional teachers. We are faced with the problem of recruiting staff members when teachers' salaries throughout this area are increasing yearly. Accordingly, it is necessary that the Town's people realize that just so long as the pupil population increases and that we compete for good teachers the costs of operating the schools will increase and continue to increase for as long as these conditions exist. Nearly eighty percent of all school budgets are devoted to salaries, and ours is no exception. If we are to continue to provide the type of education that our children need and deserve, we must be ready to pay for it. Good teachers must be sought on the open market and in direct competition with neighboring communities who offer higher salary schedules than Arlington. We must, therefore, keep our salaries at a level high enough to attract the type of teachers we desire.

Last summer we initiated a program of in-service training of our staff through the Primary Enrichment Program. The success of this undertaking exceeded our fondest expectations. It is, therefore, our intention to continue and increase this approach to in-service training this coming summer. Staff members gain a great deal by participating in the formation of the program. Professor Jerome Brumer in a recent book states categorically that "the process" is the thing that causes real learning to take place. From our experience with the "PEP" Program we find this is to be true.

Curriculum revision is a complex and involved procedure that necessitates prolonged periods of intensive work. We have found, therefore, that it is unwise to expect teachers and administrators to concentrate on curricular matters at the close of a day's work. Consequently, it is the intention of the Superintendent to request permission from the School Committee to engage in curriculum work next summer. Teachers and consultants will be hired to work on the curriculum during the summer vacation. This procedure is accepted policy among better school systems throughout the country.

CONCLUSION

"Trifles make perfection

And perfection is no trifle"

Marcus Aurellius

The smooth functioning of an educational undertaking as large as ours is the result of the work of many people. The hundreds of details that are handled each day by devoted staff members often go unnoticed of themselves but in the total picture they serve a vital role. I should like to take this opportunity to express my thanks to all those individuals on our staff who make the operation of this school system a pleasure rather than a chore. My special thanks are extended to the School Committee who in the ultimate sense makes all this possible. The School Committee has done everything possible to provide ways and means to the Administration to carry out every type of program for the improvement of the school system that was proposed. Certainly no weakness or deficiency in any aspect of our school system can be laid at its doorstep.

We of the School Staff are most appreciative of the gracious assistance afforded us whenever we have called upon the Town Manager, the Fire Chief, the Chief of Police, the Superintendent of Public Works, and the Supervisor of Custodians. I wish to pay special thanks to Mr. George Greim, Superintendent of Maintenance, whose devotion to detail and generous sharing of his abilities have made our schools a better place to work in for all. To the Assistant Superintendent, I am deeply indebted for his invaluable service resulting in long hours and very short vacation periods for him. I am also indebted to him for compiling and preparing this excellent report.

Respectfully submitted,

Report of the Planning Board

January 21, 1965

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Mr. Monahan:

In accordance with Section 49 of Chapter 90 and Section 71 of Chapter 41 of the General Laws, the Planning Board respectfully submits its report for the year ending December 31, 1964.

During the year, several changes occurred in the membership of the Planning Board. Mr. John J. Mulkerin, Jr. and Mr. William Shea were appointed as members to fill the vacancies left by Mr. George Herlihy and Miss Murdena Campbell, whose terms had expired after several years of dedicated service to the Board. Miss Campbell was subsequently appointed as a representative to the Metropolitan Area Planning Council.

A reorganization of the Board took place in July, when Mr. David A. Leone and Mr. Richard L. Mullin were elected Chairman and Secretary, respectively.

In 1964, the Board continued to carry out various programs established in the Comprehensive Plan. A series of warrant articles creating a Residence E zoning district, which would raise site standards for garden-type apartments, were brought into Town Meeting. Although the geographic boundaries of the Residence E District were not determined, its standards, nevertheless, were adopted and became a part of the Zoning By-Law.

In May of 1964, the Planning Board unveiled to the public the Plan of Arlington Center, prepared by Planning Services Group of Cambridge, Massachusetts. The plan consists of both long-range and short-range programs for the future development of this area in addition to various recommendations for zoning changes. The development of this plan will have many beneficial effects upon the Town, including a firming up of the real estate tax base, beautification of the area, increased volume of business, and better shopping facilities for the people in the Town.

In 1964, the Planning Board was developing various items of Town legislation for the control of signs. This work has been in response to a long-felt need expressed by many citizens of Arlington over the past several years. Consequently, various articles on this matter will be brought by the Board into the 1965 Town Meeting.

The Board has also been at work on other warrant articles for the 1965 Town Meeting dealing with rezoning of various parts of the Town.

In 1964, the Planning Board worked in collaboration with the Tree Department to develop plan for planting trees in Arlington Center. As a result of this endeavor, eighteen Linden trees were planted in October between Central Street and Mystic Street along Massachusetts Avenue.

The Planning Board hopes to continue this cooperative effort with the Tree Department in developing a long-range tree-planting program for the length of Massachusetts Avenue as well as other streets in the Town.

The Board wishes to express its appreciation for the willing assistance and advice which has been given to us in the above planning programs by the Town Manager and other Town officials, boards, and departments.

Respectfully submitted,

GENERAL RELIEF

Total Expenditures \$28,183.72

General relief was granted to a monthly average case load of 13 persons. 34 cases closed and transferred. Reasons for closing:

Comm. of Mass.	980.29
Net Cost to Town	<u>9,151.11</u>
	<u>\$19,032.61</u>

On General Relief the sum of \$10,000 was transferred to the account by the Finance Committee in September. Thus total available funds was \$34,000. There was a balance in the account at the end of the year of \$5,816.28.

There was no appreciable change in the case load. The unusual factor was reimbursing other Cities and Towns for aid rendered Arlington residents through 1963. As pointed out last year, the Settlement Law has been repealed and this expenditure was a nonrecurring one.

Gross expenditures in this category of assistance were approximately \$16,000 higher than last year. This increased cost was not due to an increase in case load, but Welfare recipients, like everyone else, have to pay the price of inflation. The case load at the close of this year is 24 less than the case load at the close of last year. This decrease in trend is expected to continue with the growing importance of Social Security retirement benefits, and the increased existence of private pension plans.

MEDICAL ASSISTANCE TO THE AGED

Case Load Summary

Average Case Load per Month ...	209
96 Cases Closed During the Year	

Reasons for Closing

58	-	Died

1	-	Transferred to Veterans Benefits
3	-	Committed to Westboro
11	-	Excess Resources
5	-	Moved
6	-	Returned to Home
<u>96</u>		

Expenditures for this type of assistance have increased over \$30,000 from last year. Our case load has increased by 37 cases. Our current case load now is 209 compared to 172 at the close of last year. This increase is due to both rising instances of medical need among our aged, and the increased cost of medical care. The only possible reversal of this trend, and more likely a slowing of it, would be the establishment of some form of Social Security Health care. Even if such a program is established this year, it is most likely that benefits will be small and coverage of short duration. Since most people receiving this type of assistance are chronically ill and require long-term care, such a Federal program would delay applications for this type of assistance and we would expect to be appealed to as a secondary source.

AID TO DEPENDENT CHILDREN

Total Expenditures \$130,372.39

Less: Reimbursements and Grants:

Federal Grants	\$56,541.50	
State	42,968.43	
Refunds	210.20	
Recoveries (3)	<u>1,435.00</u>	101,155.13
Net Cost to the Town		\$ 29,217.26

64 families were aided under this type of assistance, including 62 adults and 168 children.

A.D.C. cases closed 1964---33

Reasons for closing:

18	-	returned to Employment
1	-	Transferred to Westboro
13	-	Moved
1	-	Transferred to D.A.
<u>33</u>		

Expenditures in this type of assistance increased \$32,000, an increase of over 30% from last year. Most of the cases, contrary to popular belief, are occasioned by broken homes, and in such instances the only possible control is realistic court judgements for the support of the children involved. This trend, as everyone is aware, is a nation-wide phenomenon, and in many ways, Arlington is fortunate that the increase has not been larger. The case load seems to have remained constant since the middle of the year, but one cannot be sure that the trend will continue.

DISABILITY ASSISTANCE

There was a slight increase in expenditures in this category of assistance over the year--slightly in excess of \$4000. The case load fluctuates very little. The main cause for the increase, is the increase in the cost of medical care and nursing homes. We have every reason to believe that this program will remain the most stable, and may even decrease, in view of the fact that Social Security changes this year have liberalized the qualifications for Social Security Disability Assistance and also have increased benefits.

CUBAN REFUGEE PROGRAM

This program is paid for entirely by the Federal Government, although it is administered by the local agency. This past year we aided two families. Total expenditures were \$2,071.49 and all of this will be reimbursed to the Town. Received to date \$1,821.70.

NEW EQUIPMENT

This past year the Department was able to continue replacement of obsolete equipment. Through the courtesy of the Town Manager, the equipment of the Department is now in good condition with the exception of a copying machine, which has been asked for in this year's Capital Outlay Budget, and the purchase of additional (2) dictating machines.

With the cooperation of the Town Manager; Frank O'Hara Superintendent of Public Works; Warren Coughlin of the Building Department, the quarters of the Welfare Department were tremendously improved. The total sum expended on this was \$7961.85, \$1000 of which came from Capital Outlay appropriation of last year and \$7000 from available Federal grants. Our usable office space was increased by almost one third through a finishing of the basement area. The functional value of our space is greatly increased and should certainly be adequate for the Department in the foreseeable future. The foresight of the Town Manager in planning this project, the scheduling of the work by Mr. O'Hara, Mr. O'Leary, and Mr. Warren Coughlin, the work and the craftsmanship and enthusiasm of the Public Works employees who carried out the project, is greatly appreciated by the Board of Public Welfare, the Director, and all of the employees.

* Net Cost indicates the amount of money which is not reimbursed to the Town from either the Federal or State Governments. Monies received from the State Government are not returned for the Department's use, but must go into estimated receipts.

During 1964, Mrs. Alice Hanlon, Senior Clerk in the Department for the past nine years, retired. We wish her every happiness in the future.

Mrs. Mary Burke, Social Worker in the Welfare Department since 1954, resigned at the end of 1964 and was appointed as a Social Worker with the Arlington Youth Service Board. We are sorry to lose this very capable employee, but her qualifications made it advisable for her to enter this area of specialization in the profession of Social Worker.

During the past two years, with the assistance and approval of the Town Manager and the Board of Public Welfare, we have been able to restructure the Department and increase the functional efficiency of the physical plant. We can now turn our attention to the quality of social service given to the people of the community who have become the responsibility of this Department. We look forward to implementing many of the indepth services that

will be available under the Economic Opportunity Act and mobilization of other community resources, so that prevention and rehabilitation may become more important than maintenance.

The Board of Public Welfare and the entire staff express appreciation to the other agencies both private and public, Town Departments, and Officials who were so cooperative during the year that has just passed.

Respectfully submitted,

JOHN F. M. KEANE, DIRECTOR

Annual Report of the Department of Youth Services

January 5, 1965

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Mr. Monahan:

In accordance with Section 49 of Chapter 40 of the General Laws, herewith is submitted the Annual Report of the Department of Youth Services for the year ending December 31, 1964.

Our new appointment was made to the Board of Directors of Youth Services this year: Reverend Robert F. Casey of Saint Agnes Church was appointed December 22, 1964 for a term of approximately two and one-half years, expiring May 2, 1967, which term will coincide with that of Reverend Robert W. Bullock who had resigned pursuant to his assignment by his ecclesiastical superiors to a church outside of Arlington. Reverend Bullock and Reverend Lewis W. Williamson had been re-appointed for a three-year term on May 2, 1964.

At the September 22, 1964 meeting of the Board of Directors, Mr. Anthony J. DiNatale was re-elected Chairman. The Board met fourteen (14) times during 1964.

The Department continues to maintain its office on the third floor of the Robbins House. On September 1, 1964, Mr. Arthur E. Johnson was appointed Director to fill the vacancy of Mrs. Tina G. Howell who resigned as of August 31, 1964.

A grant of \$15,000. was received from the Permanent Charity Fund of Boston to pay for the salary and expenses of the Director from July 1, 1964 through December 31, 1965. This is particularly noteworthy since it was the first grant the Permanent Charity Fund had ever made directly to a municipality.

A grant of \$12,000. was received from the Massachusetts Youth Service Board under Section 69b of the Youth Service Act (Ch. 605 of 1952) to provide matching funds for the operating expenses of the Department. The availability of these matching funds coincides with the fiscal year of the State from July 1, 1964 through June 30, 1965.

The Board of Directors of Youth Services has pursued many sources for outside funds and will continue further explorations. With the passage of Article 73 of the Warrant for the 1964 Town Meeting, the sum of \$11,080. was appropriated for the Department. This amount, plus the balance of \$7,917.64. from the 1963 appropriation enabled us to meet our operating expenses. Since neither of the two outside grants had been allocated at the time of the 1964 Town Meeting, our expenditures from the Town appropriation will be far less than anticipated.

On August 31, 1964, Mr. Fred Seifer joined the staff of the Department filling the first position of social worker. On December 7, 1964, Mrs. Mary M. Burke completed our staff requirements by being appointed to the second position of social worker. Their selection over many candidates was made because their qualifications more than met the requirements of the Depart-

ment. On October 1, 1964, Mrs. Mary Doherty became full-time senior clerk-stenographer after three years of part-time employment. The Board of Directors now feels that the Department can offer the full service to the community for which it was originally designed.

In February of 1962, the Professional Advisory Committee of the Arlington Youth Council recommended the creation of the Department of Youth Services to fulfill ten (10) varied functions. In October 1964, an Interim Report was submitted to the Board of Directors of Youth Services and the Town Manager confirming how the fulfillment of these functions was being accomplished.

The most significant and important function is the direct casework and group work service offered to problem-presenting children and their parents. Since October 1963, 123 youngsters have been referred to this Department for this type of help. These youngsters have been referred to this Department from twelve (12) different sources, but primarily from the School and Police Departments.

As of December 31, 1964, 96 children were still active with this Department. The remainder have either completed their contacts with this Department or moved to another area. In all of these cases regular appointments have been set up with the children and their parents. For the convenience of working parents, home visits and evening appointments have been arranged and in all of these situations this Department has insured that help was available.

The position of our Department is unique in that it is the first town-sponsored agency in the Commonwealth of Massachusetts with a focus on delinquency prevention, control and treatment. An awareness of this has prompted the Board of Directors of Youth Services to maintain our policies and procedures under constant review to insure that the Department is functioning effectively and efficiently in meeting the growing needs of our community. Our accomplishments to date have demonstrated this and we have every confidence that as we become more fully integrated into the structure of town government and as our community acceptance broadens, our value to the town will be further enhanced.

We are taking this opportunity to express our appreciation to the staff of the various town departments for their cooperation during the past year. Our special thanks goes to the Town Manager without whose support and inspiration this program would not have been founded.

Respectfully submitted,

Arthur E. Johnson, Director
Anthony J. DiNatale, Chairman
Lawrence H. Anderson
Reverend Robert F. Casey
Kevin P. Feeley
George P. Faulkner
Rebecca Glasmann
Reverend Lewis W. Williamson

Annual Report of the Personnel Board

January 26, 1965

To the Citizens of Arlington:

The Personnel Board herewith respectfully submits its annual report for the year ending December 31, 1964.

The membership of the Board changed with the appointment of F. Lawrence Doherty to succeed Paul E. Widder whose term expired after a contribution of seven years of valued service to the Town. John E. Bowler, an employee nominee, was appointed to succeed Edward J. Swadkins. William J. Frost was re-elected Chairman for the coming year. The appointments of Kenneth R. Andrews and William J. Frost will expire on March 12, 1965. Walter H. O'Leary, an employee representative, was appointed to March 12, 1966.

The Committee authorized under Article 27 of the 1964 Annual Town Meeting selected Charles M. Evans & Associates to conduct a survey including salaries, job descriptions, job evaluations and related matters contained in Article 7C of the By-Laws. The Personnel Board has attended several meetings of the Committee and the consultant. The consultant's report as accepted by the Committee and endorsed by the Personnel Board will be submitted to the 1965 Annual Town Meeting. All requests from individual employees or certain groups of employees were referred to the consultant to be included in his survey. The Board met with representatives of Local 680 on matters concerning all employees and requests for a reduction in the required service for the third and fourth week of vacation and an 8% general increase were discussed. As most of the employees will not be affected by the consultant's recommendation, the Personnel Board is recommending a 4% increase.

In addition to the meetings, we have had frequent contact with the Executive Secretary on various personnel matters that have arisen between meetings. The Executive Secretary has had numerous conferences with the Town Manager, department heads, employees and the Division of Civil Service on matters pertaining to Civil Service procedure, the operation of the Classification and Pay Plan and the Leave Regulations. The following are some of the personnel procedures handled by the department this year:

Civil Service Requisitions	80
Emergency appointments	50
Appointments, temporary, provisiona, renewals	203
Permanent appointments	40
Promotions - permanent and temporary	46
Termination of temporary employment	178
Termination of permanent employment	23
Permanent and temporary transfers	8
Loyalty Oaths	101
Group Insurance	33

There are at present 568 permanent full-time, 43 permanent part-time, 8 temporary full-time, 29 temporary part-time, and 74 seasonal part-time classified employees in the service of the Town. The peak employment period was during the summer months with a total of 772. These figures do not include the personnel under the School Committee.

The Board appreciates the cooperation and assistance given by the Board of Selectmen, Town Manager, Finance Committee, officials, boards,

Town Counsel and employees in our effort to administer the duties and responsibilities involved. We also wish to express our sincere appreciation for the capable services of our Executive Secretary and for the clerical work performed by Mrs. Helen McCluskey.

Respectfully submitted,

Kenneth R. Andrews
Walter H. O'Leary
John E. Bowler
F. Lawrence Doherty
William J. Frost, Chairman

Report of the Purchasing Department

January 20, 1965

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Mr. Monahan:

I herewith submit my report as Assistant Purchasing Agent for the year ending December 31, 1964.

The year 1964 saw a continued rise in the cost of many of the materials and services which are necessary for the proper functioning of the various departments of the Town. As in previous years, every effort was expended to keep the cost of such items and services to a minimum. When at all feasible, the needs of many departments were combined to obtain the best possible prices.

In 1964 we were able to contract for Gasoline at a delivered price of .1619 per gallon as against the previous year's price which was .1679 per gallon. We are presently paying .1066 per gallon for #2 Fuel Oil, whereas last year at this time we were paying .1079 per gallon. Publicly opened Bids were sought in every instance on all items or services necessary. These involve, to cite a few, Gasoline; Motor Oils; Diesel Fuel; No. 2 and #5 Fuel Oil; Bituminous Coal; Tires; Fine Sand; Coarse Sand; Gravel; Ordinary Borrow for Sanitary Fill areas and Bituminous Products for road repairs and construction. All of these products require detailed specifications and eventual Contracts with Performance Bonds. Some idea of the scope of this operation may be ascertained when it is taken into consideration that we entered into Contract for eighty-two (82) different products or services during 1964. All Bids were carefully analyzed prior to award and thorough investigation made as to the responsibility of those Bidders whom the Town was unfamiliar. All Contracts are carefully prepared with the aid of the Town Counsel and signed by him prior to signature of the Town Manager.

For smaller requirements, quotations are solicited by telephone to at least three or more vendors. Where the anticipated price ranges from Four Hundred Dollars (\$400.00) to One Thousand Dollars (\$1,000.00) Bids are sought by circular letter to three or more vendors. These Bids are opened publicly in the same manner as the larger Bids. In essence, all Purchasing is performed in accordance with Article 7A of the By-Laws of the Town.

I wish to take this opportunity to express my sincere appreciation to the Town Manager, Board of Selectmen, various Boards, Commissioners, Trustees, Town Officials, Committees, Department Heads, and my Staff for their co-operation throughout the year.

Respectfully submitted,

Warren E. O'Leary
Assistant Purchasing Agent

Heavy-duty Maintenance Truck (Rebuilt 1945 Mack chassis) carries 5000-watt generator unit supplying power for six floodlights

APPARATUS AT HIGHLAND STATION

Engine 2 (1952-Seagrave), 1000-gallon pumping unit
Ladder 2 (1952-Seagrave), non-tractor-drawn 65-foot aerial ladder truck

APPARATUS AT PARK CIRCLE STATION

Ladder 3 (1949-Seagrave,) a quintuplet unit comprising 750-gallon centrifugal pumper, non-tractor drawn 65-foot aerial ladder, booster pump with attachment, carrier for 1000 feet of 2-1/2 inch hose and 500 feet of 1-1/2 inch hose, and a complement of ground ladders.

Two 500-gallon auxiliary Fire Pumps (1941-Buffalo) numbered Engine 15 and Engine 16.

IN ACTIVE RESERVE

Engine 5 (1929-Seagrave), a 750-gallon pumper, is ready to replace disabled pumping units for limited time only due to its age.

RESPONSE

The Department responded to 1431 calls of which 433 were Box Alarms, 906 Still Alarms and 92 Mutual-aid (out-of-town) calls; of the 1004 Telephone calls received 123 were Box Alarms.

This 1964 total is the second largest in the Department, the previous high being 1661 alarms in 1963.

A summary of alarms revealed that the most number of such calls occurred in the month of November; that more occurred on Wednesday than any other day of the week, and also that of these calls, the largest number being between the hours of 11:00 a.m. and 12 Noon; and between 3:00 p.m. and 4:00 p.m.

One hundred and thirty-eight false alarms were sounded as compared with 178 in 1963.

Rescue Unit #1 responded to 121 First Aid Emergency calls where the Resuscitator and Inhalator were requested for administration of oxygen. Rescue equipment on this Unit was used on several occasions to release persons trapped when involved in automobile accidents; also on calls to homes where accidents occurred through the misuse and faulty operation of home appliances.

Received 3 calls for use of Department Life Boat.

FIRE FATALITIES

April 21, 1964, Rose Mulcahy, 151 Mystic Street, victim of smoke inhalation.

July 1, 1964, Fred Weagle, 131 Wright Street, died from electrocution.

MULTIPLE ALARM

November 20, 1964, second alarm sounded, Box 681, at 1:02 p.m. house fire at 20 Pine Ridge Road.

GENERAL SUMMARY OF EQUIPMENT USED AT FIRES

Ladders Raised	4067 feet
Hose Used	59450 feet
Water from Booster Tanks	40752 gallons
Pumping Operations	460 for 90 hours
Miles Traveled	6394 miles
Service Time	2965 hours

WEATHER DATA

February 19, 1964, because of heavy snow storm, additional fire fighters worked in the stations to augment manpower.

June 20, 1964, the Department received 26 requests to assist home owners to pump water from cellars, resulting from severe rains.

July 1, 1964, a violent lightning storm hit Arlington causing numerous fires and many electrical problems were created throughout the town.

November 14-20, 1964, because of the prolonged period of dry weather, His Excellency, the Governor of Massachusetts, issued Order Prohibiting outside burning.

FIRE LOSSES

Eighty-nine losses occurred, 24 of which accounted for \$129,316 of the entire yearly loss.

The total assessed value of property endangered, insurance thereon, loss sustained, and amount of insurance paid are as follows:

	<u>Assessed Value</u>	<u>Insurance</u>	<u>Damage and Insurance Paid</u>
Buildings	\$2,457,650.	\$3,767,900.	\$ 94,336.91

REPORT OF DEPARTMENT PHYSICIAN

Dr. Edward W. Feeley, Department Physician, rendered the following services in 1964: office calls 64, station calls 2, hospital calls 25, physical examinations 2, house calls 1. Furthermore, Dr. Feeley responded to emergency calls and alarms of fire. Several conferences were held with the Fire Chief on Medical matters pertaining to the Department.

November 24th and December 29th, Dr. Feeley inoculated the Members of the Department for prevention of "Flu".

FIRE PREVENTION

Assigned to the following phases of fire prevention were:

Deputy Chief Charles J. Doherty - Lodging and Rooming Houses
 Deputy Chief Francis M. Doherty - Mercantile Inspections
 Deputy Chief Irving L. Proctor - Quarterly Inspections of Nursing Homes and Hospitals

Theatres were regularly inspected by the Deputy Fire Chiefs.

Deputy Chiefs conducted quarterly inspections of Town-owned buildings in conjunction with the Insurance Program.

Officers and Fire Fighters made periodic inspections of places of business, public buildings, schools, hospitals, convalescent homes and places of public assembly. Records of existing conditions with date of corrections were kept.

For the fifth year, the recharging of fire extinguishers was carried out by the "In-Service" Plan whereby the Fire Fighters responded with apparatus to each public building, instructing occupants in the operation and actual use of a fire extinguisher in case of fire. A total of 425 fire extinguishers were recharged or inspected.

During 1964, Lieutenant Daniel J. Mahoney, Inspector of Oil Burning Installations and Flammables, inspected 174 oil burners in addition to flammable installations and storage equipment. One hundred and thirty-four permits were issued for approved installations after inspection. It was necessary to reinspect 40 installations because of faulty equipment and failure of installers to meet the State Rules and Regulations.

Gasoline tank leakage was discovered at 712 Summer Street and at 1234 Massachusetts Avenue. Lieutenant Mahoney closely checked these areas for several weeks until correction was attained by receiving the fullest cooperation of the oil companies involved.

FIRE PREVENTION WEEK

October 4-10th was observed as Fire Prevention Week. Fire Department Officers distributed appropriate calendars and posters marking the occasion. These were placed in public buildings and places of business throughout the Town. With permission of the Superintendent of Schools, passed out to children in schools practical fire prevention pamphlets and booklets. These were interesting and favorably received.

In conjunction with Fire Prevention Week activities, the Public Works Department cooperated in removing accumulated rubbish and debris set out at curbsings for collection.

DWELLING INSPECTIONS

The "In-Service" inspection of dwellings was conducted for the eighth year and approximately 12,500 homes were inspected by Fire Fighters.

In April, the annual "Clean-up, Fix-up, Paint-up" Program began and continued into the month of May. During this inspection, Fire Fighters pointed out common hazards to occupants with emphasis on all practicing safety in the home. Again, this program was directed by Lieutenant Harold C. O'Leary.

The Public Works Department also assisted as in Fire Prevention Week by picking up rubbish and debris placed at curbsings.

FIRE DRILLS IN SCHOOLS

In compliance with Massachusetts General Laws, Chapter 148, four fire exit drills were conducted in public, parochial and private schools, under the supervision of Officers of the Arlington Fire Department.

For the tenth year, the "In-Service" method was employed whereby apparatus is available for response to an alarm of fire through the medium of two-way radio.

A record was made of the number of classrooms, pupils, exits used

and the time required to evacuate each building, a copy of which report was sent to the School Department.

FIRE DRILLS IN NURSING HOMES

In accordance with the provisions of Chapter 333, Massachusetts General Laws, Deputy Chief Irving L. Proctor made periodic inspections and held the required fire drills at Symmes Hospital and the nine nursing homes in Arlington. Reports were forwarded to the Massachusetts Department of Public Health.

HYDRANT INSPECTIONS

Under direction of Lieutenant Harold C. O'Leary, the tenth semi-annual "In-Service" inspection of 1327 hydrants was continued.

In November all hydrants were checked for water in the barrel and if water was found it was pumped out. This program was conducted by members of the Water Department and Fire Department jointly.

Permanent records are kept by the Fire Department and close cooperation with the Water Department is maintained. Faulty or defective hydrants were restored to service as soon as possible.

The third Water Volume and Pressure Survey conducted since 1954 was completed in the fall of 1964, by Deputy Chief Irving L. Proctor and Water Department mechanic, Victor Roberto. That report was forwarded to Town Manager, Edward C. Monahan and to Francis N. O'Hara, Superintendent of the Public Works Department.

TRAINING OF FIRE FIGHTERS

Four Fire Lieutenants received Instructor-Certificates from the American Red Cross after completing the necessary training. Later, a refresher course was given to all Members of the Department by these Instructors during February and March 1964.

March 30, 1964, one Fire Captain and three Fire Fighters attended a three-week training course at the Brookline Fire Department Drill School.

October 5th, a four-week training period for our Fire Fighters was held at the rear of Highland Fire Station. This program covered Fire Fighting procedures including laying of hose lines, pump operations and use of all types of ladders, gas masks and first-aid equipment.

Throughout the year, drills were conducted at Spy Pond and at Heights Reservoir. Frequent "house drills" were held at the Stations.

The Department Drill Instructor is a Member of the Massachusetts Drill Masters' Association which forwards to its membership the latest techniques of scientific fire fighting evolutions.

AUXILIARY FIRE FIGHTERS

Auxiliary Fire Fighters worked in the Stations from 7 p.m. until 10 p.m. on many occasions and rendered stand-by assistance. They responded and aided the regular Department during fires, snow storms and other unusual weather conditions.

Deputy Chief Irving L. Proctor, is the Fire Department Coordinator for this group under the direction of Civil Defense.

DETAILS

Fire Fighters were detailed to stand-by duty as precautionary measure to guard against fire during welding operations or when blow torches were being used for repairs in school or public buildings.

Since 1949, Fire Fighters at Park Circle Station have been assigned during school hours for traffic duty in that section to protect school children.

April 19th, Engine #1 participated in Patriots' Day Parade in Arlington and in Lexington.

May 30th, Rescue Unit #1 in line for Memorial Day Parade.

In 1964, the Highland Fire Station was utilized for registration of voters and voting purposes by the Town of Arlington. Park Circle Station also was used for voter registration in addition to being a meeting place for many civic groups.

BUILDING MAINTENANCE

At Headquarters, the repointing and waterproofing of the 80-foot tower was completed. This required many years since one side was undertaken each year. The total cost was \$8717. Fire Fighters painted the exterior white trim with one coat and also painted all rooms on the second floor of headquarters building. A great saving was realized since only cost was for materials.

In 1964, three electric door openers were installed on the Broadway side of the station. Doors may be opened or closed by use of power or manually. Each door has electric timer for automatic closing when apparatus is out of quarters for more than several minutes. Additional features include a pneumatic safety device to reverse travel of doors when in contact with any object; also provided is weatherproof outside key-switch to operate the motors.

In the budget for 1965, a request has been made to install electric motors on the three remaining doors. When all apparatus doors are so equipped, much benefit will be derived in cold weather due to automatic closing of these doors at Headquarters.

At Highland Station, Fire Fighters carried on with General repairs and maintenance of the interior of the building. A budgetary request for 1965 calls for major work on the outside of this station including the roof, gutter, rear porch and the repointing of bricks.

At Park Circle Station, work was completed by contractor to replace decayed faceboards at the bottom of slate roof, above and below the gutters. Installed also were new gutters, conductor pipes and dry wells. Fire Fighters painted the apparatus floor, ceiling and walls. Again, the only cost to the Town being for necessary materials.

RECOMMENDATIONS

For the year 1965 recommend that \$761,919 be appropriated.

CONCLUSION

To the Honorable Board of Selectmen, to Town Manager, Edward C. Monahan, for cooperative interest, my sincerest thanks.

To other Departments for helpfulness, my gratitude.

To our own officers and men for faithful and devoted performance of duty, deepest appreciation.

Respectfully submitted,

John E. Canniff
Chief of Department

Report of the Fire and Police Signal System

January 1, 1965

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Sir:

As Superintendent of the Fire and Police Signal System, I submit the Annual Report for the year ending December 31, 1964.

This System is maintained by Assistant Superintendent Lester W. Cameron together with two Signal Maintainers.

FIRE ALARM AND POLICE SIGNALS

Experienced many difficulties as the result of temporary breakdowns in aerial and underground lines. Storms, high winds, rain, snow and lightning inflicted severe damage and circuits were grounded. When found out of order, circuits were restored to immediate service.

Made routine repairs, wound and tested fire alarm boxes and police signal boxes. Maintained and painted 325 fire alarm boxes and 89 police signal boxes throughout the Town. Installed decal "Fire" on fire pedestals. Conducted water-flow tests on signal boxes connected to sprinkler systems. Checked police signal desk, signal registers, air whistles and master clocks.

As of December 31, 1964, a modern Police Operations Desk is being installed in Police Headquarters to include all necessary equipment relating to the two-way radio and the Fire and Police Signal System of the Town.

During 1964, held quarterly testing of fire alarm signal boxes as recommended by the New England Insurance Rating Association. Tests were under the direction of Deputy Chief Charles J. Doherty and the Assistant Superintendent of the Fire and Police Signal System, Lester W. Cameron. Faulty and defective boxes were rectified immediately upon discovery.

Relocated the following police signal boxes:

Box 321 Senior High School - New Freshmen Building
55 Grove Street - Public Works Department Building

Installed new fire alarm boxes:

Box 13 Fire Headquarters Building
1312 Massachusetts Avenue-Palmer Street
3581 Mystic Street - No. 412
4212 Wellington Nursing Home, 8 Wellington Street
5512 Hobbs Court - Quinn Road

Installing new fire alarm boxes:

Box 2821 Lakehill Avenue - (end)
468 Spring Street-Bellevue Road
5314 Senior High School - New Freshmen Building
7192 Tower Road - Greeley Circle

Relocated:

Box 7121 Symmes Hospital - New Building

The doors on the following fire alarm boxes were changed from the rattler-type to quick-action style door:

Box 351 Mystic Street - Russell Street
3552 Ridge Street - Crosby Street
486 Highland Avenue - Gloucester Street
62 Coleman Road - Moulton Road
68 Appleton Street - Park Avenue
681 Pine Ridge Road - Spring Avenue
822 Appleton Street - Daniels Street

CABLE CONSTRUCTION

Repaired 3-inch conduit on Academy Street when damaged because of street construction. On Grove Street, Public Works Department, removed 1/2-inch conduit and clipped 3/4-inch conduit to radio cable. On Hobbs Court, moved 1/2-inch conduit during installation of span wire and cable by Telephone Company.

Reran 2-conductor aerial cable on the following streets:

Richfield Road-Saratoga Road
Oakland Avenue-Appleton Street to Gray Street
Brattle Street-Brattle Court
Jason Street-Box 46 - to Massachusetts Avenue
Crosby Street from Falmouth Road to Upland Road
Summer Street from Park Avenue Extension to Newland Road
Orvis Road from Massachusetts Avenue to Brooks Avenue
Johnson Road-Victoria Road to Richfield Road
Pleasant Street-Wellington Street
Philips Street-Beacon Street

Renewed 4-conductor underground cable on Massachusetts Avenue and Forest Street.

Pulled in 6-conductor underground cable , replacing old cable, cutting over to signal boxes and rebuilding terminal boxes on:

Wilson Avenue - From Box 285
Columbia Road - Bishop School
Massachusetts Avenue - Senior High School
Massachusetts Avenue - Box 571 - to Drake Road
Lake Street-Littlejohn Street from manhole to Box 2841

Renewed #14 wire in terminal box on Wellington Street and on Pond Lane.

Replaced, reran and pulled up 6-conductor aerial cable on the following streets, removing old cross-arms:

Westmoreland Avenue-Lowell Street	Crosby Street
Silk Street-Fremont Street	Ridge Street
Hutchinson Road	Hemlock Street
Hobbs Court	Lansdowne Road
Drake Road	Marathon Street
College Avenue	Broadway
Waldo Road	

Made transfers of cables to new poles, rebuilding lines and pulling up slack on aerial conductors.

Throughout the Town, removed and trimmed trees and branches away from aerial lines of the signal system, and installed wood mold where wires came in contact with trees.

Radio System

During the year extended the "quick-call" radio system which was installed in 1963 at Fire Department Headquarters, in the Fire Alarm Division, at Police Headquarters and at the Public Works Department Building.

Civil Defense, Radio District #13, two-way system in effect, October 21, 1964. Central fire alarm quarters is located in Newton, operating on 154.22 megacycles.

RELOCATING FIRE ALARM SIGNALLING EQUIPMENT

Due to the changing of the fire alarm room at Fire Headquarters and the purchasing of modern equipment, it was necessary to remove old wiring of the original signal system installed in 1925.

Renewing and replacing of wires and electrical changes were under the supervision of the Assistant Superintendent of the Fire and Police Signal System, Lester W. Cameron.

At the Park Circle Fire Station, installed emergency lamp and bell in case of failure of Edison current.

Air Raid Signals

Tested sirens on first and third Fridays of each month.

Routine inspection was made of the Air Raid Sirens throughout the Town:

Massachusetts Avenue - Teel Street
 Massachusetts Avenue - Winter Street
 Massachusetts Avenue - Tufts Street
 Massachusetts Avenue - Mill Street
 Massachusetts Avenue - Brattle Street
 Massachusetts Avenue - Forest Street
 Massachusetts Avenue - Park Avenue
 Florence Avenue - George Street
 Summer Street - Mill Street
 Summer Street - Park Avenue Extension
 Broadway - Everett Street
 Broadway - Silk Street
 Lake Street - Margaret Street
 Highland Avenue - Ottawa Road
 Mystic Street - College Avenue
 Medford Street - Sherborn Street
 Pleasant Street - Gould Road
 Lowell Street - Park Avenue Extension

DETAILS

Set up Public Address System on many occasions for various Departments.

April 19th, Patriot's Day, sounded 1-7-7-5 on air whistle at Fire Department Headquarters.

July 4th, Independence Day, sounded 1-7-7-6 on air whistle.

In the Arlmont Village section of the Town, for several days, checked on aerial signal lines during the process of moving houses due to the contemplated reconstruction of Route #2.

The Town Clock in church steeple, Massachusetts Avenue-Pleasant Street, wound weekly on Fridays.

Arranged Christmas lighting and decorations at the Town Hall, Library, Police Headquarters, on tree and crib at Monument Park and at the three fire stations. Set up Public Address System for the playing of carols from tower of Fire Headquarters Building.

Appropriation

1964 Appropriation	\$27,749.00
Expended	25,655.00
Balance	\$ 2,094.00

Recommendations

For the Year 1965 recommend that \$23,676 be appropriated.

Conclusion

To the Members of the Board of Selectmen, and to Town Manager, Edward C. Monahan, for interest and cooperation in matters pertaining to this Signal System, my sincerest thanks.

To the Assistant Superintendent of the Fire and Police Signal System, and to the Signal Maintainers, for best efforts to efficiently operate our Signal System, my deepest gratitude.

Respectfully submitted,

John E. Canniff, Superintendent
Fire and Police Signal System

Report of the Board of Selectmen

The Board of Selectmen herewith submits its Annual Report for the year ending December 31, 1964.

At the Annual Town Election held in March, Messrs. John J. Bilafer and Kevin P. Feeley were elected Selectmen for a term of three years.

The Board organized at the first meeting following the election with Mr. John J. Bullock being unanimously elected as Chairman and Mr. Joseph P. Greeley being unanimously elected as Vice-Chairman.

Although we are legally designated as Selectmen, we are also by virtue of this office a Board of Survey and a Board of Public Works. In order to preserve the continuity of records which were formerly the prerogative of independent prior Boards, we separate our meetings into three categories, with separate agendas for each such category.

Weekly meetings are held throughout the year with the exception of the summer months when bi-weekly meetings are held unless the need for special meetings arise, in which case the Chairman determines the necessity for such action.

Many of our functions recur annually and, although the basic concept of law in relation to these functions remains unchanged, variations in arriving at conclusions in specific instances do arise and can become wearying and time consuming. We shall not attempt to include routine matters in this report but shall confine ourselves to some of the more important phases of the office.

Traffic problems and general transportation is becoming increasingly troublesome. So much so that it is no longer a local problem but is of real concern on a State and National level. Concern on the State level has been great enough to cause the General Court to enact legislation proposed by the Governor, which is designed to create and preserve a mass transportation system which will serve the entire Commonwealth. The passage of Chapter 563 of the Acts of 1964 which embraces this legislation, abolishes the Metropolitan Transit Authority which formerly served Arlington together with thirteen other communities and creates the Massachusetts Bay Transportation Authority whose functions under a five man Board of Directors is to provide mass transportation wherever it may be needed in the Commonwealth. The Law also provides for the creation of transportation areas; thus Arlington is a member of the Massachusetts Bay Transportation Authority area which has been expanded to embrace 78 cities and towns in the Greater Boston area. An Advisory Board comprised of one public official from each community has the following powers of approval in the administration of this particular system:

1. The appointment of a General Manager
2. The M.B.T.A. program for mass transportation
3. Modification or improvement of existing facilities prior to the adoption of the public mass transportation program by the M.B.T.A.
4. Fare changes: except increases made necessary by a deficit in operating the rapid transit facilities, in which case the Board is only to be advised of the increase.

5. The Authority's annual budget and supplementary budgets. The Board may reduce items in any budget within 30 days.

We firmly believe that this legislation is a step in the right direction and if it can develop a transportation system which is efficient, speedy, comfortable, safe and reasonably priced, we will have advanced a long way in providing a solution to a situation which is rapidly becoming intolerable.

Ever since street cars in Arlington have been replaced with diesel buses, we and Selectmen who preceded us have repeatedly been attempting to acquire some sort of shelter in Harvard Square for commuters at the outbound terminus without any apparent success. A questionable victory was achieved when the officials of the M.T.A. permitted passengers to board buses which were standing by in preparation to their regular run; however, this was a makeshift arrangement and quite unsatisfactory. Within the past year a catalytic muffler had been developed for use on diesel buses which was designated to eliminate the harmful elements contained in diesel exhaust fumes. Buses equipped with these mufflers were permitted to enter the Harvard Square subway and exhaustive air quality tests were performed by qualified scientists. The results of these tests were extremely gratifying and led to conclusions that buses could be operated within the Harvard Square subway without detriment to public health. Before a conclusive determination could be made in this respect, however, buses had to be operated under regular commuting conditions and it was obvious that this could only be accomplished by instituting some sort of a trial period. Consultations with the transit officials and with our Senator and Representatives disclosed that this could not be accomplished without the permission of the State Department of Public Utilities. After joint conferences, the aforesaid State Agency has granted the M.B.T.A. permission to operate these buses, with the Harvard Square subway as a terminus, for a three month trial period beginning January 4, 1965, under stringent regulations. At this writing we are confident that if the riding public will support this service it could conceivably be conducted on a permanent basis.

Last spring we were confronted with a situation that could have adversely affected the economy of Arlington as well as a number of surrounding communities. It began when the Griffiss Air Force Base in Rome, New York, was involved in a severe cut back by the Department of Defense and a Congressional delegation from the State of New York attempted to relocate the Electrical Systems Division from the Hanscom Air Force Base in Bedford to the Griffiss Air Force Base. We took immediate steps with Officials from our sister communities to forestall any such move, since the relocation of this installation would not only affect employment in this area but would also result in the loss of Federal grants to our school system. The President of the United States, as well as our Congressional Representatives, were alerted to this situation and, as the result of this concerted effort, all attempts to move this facility were abandoned.

The Arlington Historical Committee has met with us on numerous occasions to discuss their proposal for the erection of a statue of Uncle Sam in the memory of Samuel Wilson, who was born in Arlington on September 13, 1766, and was the progenitor of Uncle Sam. They propose to finance this venture by popular subscription and to erect and dedicate this statue in 1966 on the 200th anniversary of Samuel Wilson's birth. It is anticipated that this program will be launched in 1965, when a full scale drive for the necessary funds will be instigated. The Board, working in close cooperation with this Committee, was instrumental in arranging an exhibit of historical value on this personality at the Massachusetts Pavilion of the World's Fair in New York City during the year. Comments from those who viewed this exhibit have been highly complimentary.

As a Board of Survey we carried out the requirements of this office by acting on the customary petitions received from utility companies for locations of their overhead and underground structures and other matters of a routine nature.

A street construction program was developed in accordance with usual practice with some seventeen streets being laid out and recommended for acceptance and construction. The estimated cost of this program will amount to almost \$300,000.00 and is only a small segment of some 34 miles of private ways which remain for future processing.

A Chapter 90 program for the improvement of certain public ways with funds allotted by the State and County has been adopted at a total estimated cost of \$74,500.00. Under this program improvements will be made to portions of Massachusetts Avenue, Summer Street, Mystic Street, Medford Street and Lowell Street, with the town assuming only 25% of the cost of participating items of construction.

The widening of the Concord Highway, Route 2, between Route 128 and the City of Cambridge is rapidly approaching the construction stage and we have, on a number of occasions, been in consultation with the State Department of Public Works on various aspects of the proposed construction. One of the most important proposals concerned the installation of an extensive clover leaf interchange at the intersection of this expressway with Pleasant Street, and involved the taking of much more real estate, including an extensive portion of Spy Pond, than had been originally planned. Extensive negotiations with State Officials, and the aid of various Legislators from this district, were necessary before an agreement could be obtained to make a less pretentious installation. Under the province of this Board we also have continued our annual program for the installation of permanent sidewalks and edgestones and for the improvement of our drainage system.

As a Board of Public Works we have concluded our program for the improvement of public ways with funds in the amount of \$153,640.00 received from the State for this purpose. Approximately twenty streets were repaired with these funds and eliminated the necessity of requesting an appropriation that would have had to be reflected in the tax rate.

During the year we experienced some difficulty in the operation of our sanitary landfill operation. Allegations had been made that the area was detrimental to public health. However, after extensive conferences with the State Department of Public Health, the Town was absolved of any acts that could be deemed detrimental to the welfare of the community.

Once each year we are presented with a list of unpaid water bills which must be certified as liens to the Board of Assessors who include these amounts in the real estate tax bills. We noticed that this list was increasing from year to year and had this year increased to an amount of over \$20,000.00, which was represented in 705 separate accounts. This, in itself, was not too alarming but when we considered the cost of processing these accounts by the various departments involved, it posed a serious personnel problem which could not be ignored. Consequently the only logical solution that presented itself was to pass this added cost on to the delinquent consumers. After a great deal of consideration we adopted a policy whereby a penalty of 10% of the amount of the water bill would be paid by any delinquent consumer in addition to the existing 25 cent penalty currently in existence on quarterly bills.

We have been informed by the Metropolitan District Commission that the Mill Valley relief sewer between Medford and Lexington has been designated for construction and has received the approval of the State

Department of Public Health. It is scheduled for construction during the next two years. This has been a badly needed facility to absorb the added influx of sewage from Lexington and Winchester and, upon completion, will eliminate the potential health hazard currently in existence from overflowing sanitary sewers.

In conclusion we would like to express our sincere appreciation to the Town Manager and to all Boards and Commissions who have extended their cooperation during the year, thus aiding us to discharge more efficiently the functions of our office.

We also want to offer our thanks to our Secretary and the departmental staff without whose loyal and diligent services it would have been impossible to carry out the duties with which we are entrusted.

BOARD OF SELECTMEN

Honorable Board of Selectmen
Arlington, Massachusetts

Gentlemen:

The Registrars of Voters herewith submit their annual report for the year ending December 31, 1964, in accordance with Section 3 of Article 3 of the By-Laws.

Temporary Assistant Registrars designated by our Board made a complete canvass of the Town for the purpose of taking the annual listing of persons twenty years of age and older residing in the Town of Arlington on January 1, 1964, and in conjunction therewith a listing of owners or keepers of dogs, both as required under the law.

Our board certified the signatures of 13,860 voters appearing in nomination papers filed by or in behalf of candidates seeking municipal, county and state offices, petitions for articles to be inserted in the Warrant for the Annual Town Meeting, recount petitions, initiative petitions and applications for absentee ballots.

Twenty-three evening sessions for the registration of voters were held during the year at various public buildings throughout the town. At these sessions 1,739 persons were qualified to vote in primaries and elections. Throughout the year daily sessions for registration of voters were held during regular business hours in the office of the Town Clerk, at which an additional 3,895 were so qualified, making a total of 5,634 new registered voters in 1964.

In accordance with a new provision of the law, 98 persons were determined by our Board to be qualified to vote for electors of president and vice-president only at the State Election. These were persons who were qualified to vote except that they lacked the required length of residence in Massachusetts to register as voters. Each such person had been certified as qualified to vote by the registrar of voters (or equivalent official) of his former place of residence outside the commonwealth. A total of 123 applications to vote for such electors were filed, but 25 were declined certification by their places of former residence.

Upon completion of the work of revising the voting list, in accordance with the true list information that had been presented, notices were sent by first-class mail as required by law to persons whose names were to be removed from the voting list for the reason that they had not been reported as residing in Arlington on January 1, 1964. Those who proved residence were reinstated.

As a result of the notices mailed, names of voters who had moved out of Arlington were removed from the voting list. In addition, names were removed because of death, change of name by marriage or court decree, failure to comply with the notice and other changes in voting status.

The total number of registered voters upon completion of the revision of the voting list was 26,795.

A record high number of registered voters was reached at the close of registration for the biennial State Election with a total of 29,753. Of this total 14,731 were enrolled Democrats and 6,870 were enrolled Republicans with 8,152 unenrolled voters. Following is a breakdown by precincts:

PREC.	TOTAL NUMBER VOTERS	TOTAL DEMOCRATS	TOTAL REPUBLICANS	TOTAL UNENROLLED VOTERS

Total	29753	14731	6870	8152

For the four elections held in 1964, the Registrars were in session throughout the entire period during which the polls were opened, after which they assisted in the tabulation of the returns of ballots cast at such elections, as follows:

	<u>Polls Open</u>	<u>Tabulation Completed</u>
Town Election (March 2, 1964)	7 A.M. to 8 P.M.	3:30 A.M.
Presidential Primary (April 28)	12 Noon to 8 P.M.	9:45 A.M.
State Primary (September 10)	7 A.M. to 8 P.M.	3:40 A.M.
State Election (November 3)	7 A.M. to 8 P.M.	9:00 A.M.

A recount of the ballots cast in Precincts 2, 4, 6, 7, 9A, 9B, 11A, 11B and 13 at the State Primary on September 10 for the Office of Representative in the General Court in the twenty-eighth Middlesex District (Democratic) was held on Saturday, September 19. The details thereof are included in the "Records of Elections and Town Meetings" which appear elsewhere in the printed Town Report.

Petitions for a recount of the ballots cast in all the precincts of the Town at the State Election on November 3 for the office of County Commissioner in Middlesex County were filed with our office within the time required by law. However, the recount which was scheduled for December 5, was ordered to be discontinued following receipt of the written requests for such discontinuance from all the candidates for the office.

During the year the information contained in the approximately 35,000 listing slips of residents of the Town on January 1, 1964, was transferred to their individual master cards, which provide for a complete official record of residence for all persons twenty years of age or older from the time they first became residents of the Town of Arlington.

Mr. Alfred M. DeVito became a member of this Board on February 4 by virtue of your appointment of him to fill the vacancy created by the death of Timothy J. Buckley.

Mr. Harlan P. Smith became a member of this Board on April 1 by virtue of your appointment of him to fill the vacancy created by the retirement of Mr. Arthur P. Wyman following the expiration of his term. Mr. Wyman had served as a Registrar of Voters since 1940 and was Chairman of the Board at the time of his retirement. Always conscientious and faithful to the performance of his duties, Mr. Wyman never gave less than his best to the Town.

We also record the passing on December 19, 1964, of Ernest Hesseltine, who had served the Town as a Registrar of Voters from 1949 to 1954.

Respectfully submitted,

Joseph H. Cormier, Chairman
Alfred M. DeVito
Harlan P. Smith

Report of the Board of Health

Mr. Edward C. Monahan
Town Manager
Arlington, Massachusetts

Dear Mr. Monahan:

The Board of Health herewith submits its Annual Report for the year ending December 31, 1964, which reports the services rendered by the Department, together with the reports on vital statistics.

The Board of Health at this time, wish to express appropriate recognition to J. Philip Bower who served with honor, respect, and distinction as Health Agent for the Board of Health for twenty six years. Mr. Bower was appointed Health Agent on June 6, 1938 and retired from his office, September 18, 1964.

Those of us who were fortunate to have served with him, during his long and faithful service, will forever remember that this man was dedicated to his work and gave so whole-heartedly his services to the interest of the Town of Arlington.

We, his co-workers, wish him an abundance of health and happiness for his retirement from Public Office.

Respectfully submitted,

Ralph L. LaValle, Chairman

REPORT OF DUTIES OF PUBLIC HEALTH NURSE

Visits were made to homes of certain people, who had reportable cases of communicable diseases and when necessary, routine follow-up visits were conducted. Initial visits were made to homes of new Tuberculosis cases, and where a case involved Contacts, they were requested to have X-ray examinations.

Elementary and high school children of the Parochial School received physical examinations, Massachusetts Vision Tests, Tine Tuberculin Tests, and an examination caused by a dental survey. Assisted at each of the above and recorded any defect or failure, where necessary, the parents were notified by referrals.

Emergency and first-aid treatment was performed when needed.

Nursing Homes licensed to operate in the Town of Arlington, were inspected periodically.

Assisted at the Annual Dog Rabies Clinic and Town Employees' "Flu" Vaccine Clinic.

Detailed and statistical reports were recorded and submitted to the Director, relative to the performance of her duties.

Assisted in office routine as needed.

REPORT OF BOARD OF HEALTH PHYSICIAN

Physical examinations were completed on 1415 pupils of the elementary and high school grades of Parochial Schools.

Administered 215 inoculations of Influenza Vaccine at clinics, conducted by the Board of Health for Town employees.

Intramural Cardiac check-ups were given to 35 Parochial School children who participate in Intramural Sports Activities.

Released from quarantine all members of households, ordered quarantined by Board of Health regulations.

REPORT OF INSPECTOR OF SLAUGHTERING

There was no slaughtering performed in the Town for the year 1964.

REPORT OF DOG OFFICER

During the year the Dog Officer, collected and disposed of 430 carcasses of small animals and fowl. Disposal was made in a prescribed manner. Reports relative to the number stated, were received from the Board of Health and other Town Agencies.

Report of the Town Counsel

Mr. Edward C. Monahan
Town Manager
Town of Arlington
Robbins Memorial Town Hall
Arlington, Mass. 02174

Dear Sir:

I herewith submit my report for the year 1964 in accordance with Section 3 of Article 3 of the By-Laws of the Town of Arlington.

There have been thirty-two accident claims against the Town this year. Eleven have been settled as authorized by the Town Manager and the Board of Selectmen. Five have brought suit and sixteen are in abeyance. Of the previous years' claims and suits, twelve were abandoned without suit, two were abandoned at the time they were reached for trial, seven were settled as authorized by the Town Manager and the Board of Selectmen, and five are still pending. There were no verdicts against the Town.

Twelve land damage claims against the Town arising from street widenings and storm drain installations were disposed of - eleven by compromise settlements authorized by the Town Manager and the Board of Selectmen, and one by trial in the Superior Court.

There was one case pending against the Town before the Massachusetts Appellate Tax Board petitioning for a real estate tax abatement. This case was tried and there was a finding for the Town denying the requested abatement.

A petition was filed in the Land Court by an abutting landowner to determine the validity of the Zoning By-Law Amendment enacted under Article 80 of the Warrant for the 1962 Annual Town Meeting. Trial of this case resulted in a finding by the Judge of the Land Court that the Zoning By-Law Amendment voted under said Article 80 of the Warrant for the 1962 Annual Town Meeting placing the land in question in a Residence C Zone was an invalid exercise of the authority and powers conferred on the Town of Arlington by the statute. This decision has been appealed to the Supreme Judicial Court of the Commonwealth.

A Workmen's Compensation claim was denied by the Town on the basis that the disability in question was not casually related to the employee's work. A hearing before a single member of the Industrial Accident Board resulted in a finding for the Town and this decision was confirmed, on appeal, by the Review Board of the Industrial Accident Board. The decision of the Review Board was appealed from by the employee's representative to the Superior Court which, after a hearing, affirmed the decision of the Industrial Accident Board. An appeal was taken from the decree of the Superior Court to the Supreme Judicial Court. The case was argued by Counsel at the November sitting of the Court. A decision has just been handed down by the Supreme Judicial Court that the decree of the Superior Court that the evidence supported the finding that the disability of the employee was not casually related to his work.

Substantial amounts of money for aid rendered by the Board of Health and the Symmes Hospital have been collected and turned over to the Town Collector.

Substantial amounts of money for aid rendered by the Bureau of Old Age Assistance have been recovered and turned over to the Town Collector also.

The Town Counsel has been available at regular and special meetings of the Board of Selectmen, has worked in close co-operation with the Town Manager, has rendered opinions as requested by the Town Manager, various Boards, Departments, Committees and Officers, has attended meetings at State Boards and Commissions, and has been vigilant in all matters affecting the interest of the Town.

For the kind consideration and co-operation extended to me by all the officials of the Town during the past year, and especially to the Board of Selectmen and Town Manager, I desire to record my sincere appreciation.

Very truly yours,

Joseph A. Purcell
Town Counsel

REPORT OF THE TRUSTEES OF THE ROBBINS LIBRARY

To: Mr. Edward C. Monahan, Town Manager

Dear Mr. Monahan:

Again the Board of Library Trustees, through its report of the year 1964, can attest to the increasing importance of the library services to the community. Continued and added demands have been made upon library facilities and have taxed both space and staff to a greater degree than ever before in the history of the library.

Personnel

Changes in the staff have taken place with replacement, especially in the professional category, increasingly difficult, due, in large part, to the inadequate salary scale presently in force and to the continued shortage of qualified people available. In the fall, after a year of searching, a cataloguer was found to fill the vacancy which had been open since October 1963. Mr. Ernest Kruhmin, a graduate of Boston University with a Master's Degree in Library Science from Simmons College and with considerable library experience in the Enoch Pratt Library of Baltimore, was appointed to the staff in this position and assumed his duties on October 5, 1964.

In April, Mrs. Marie O'Day, a Readers' Adviser on the staff of the Circulation Department, became the Young Adults' Librarian, filling the vacancy caused by the resignation of Mrs. Carol DiPesa. Mrs. O'Day is a graduate of Reed College and is presently studying for her Master's Degree in library science at the School of Library Science, Simmons College. The opening caused by her advancement was filled by Mrs. Sheila Brownstein, whose background includes a B.A. from the University of London and Polytechnic, London, and experience in special, school and college libraries.

In June, Mrs. Dorothy Miller and Mrs. Rita Girshman resigned as School Librarians, Mrs. Miller to enter the Peace Corps and accept an assignment in Nepal. Miss Judith Sanders was transferred from the School Librarian staff to that of the Junior Library to replace Mrs. Susan Casey who severed her relations with the Robbins Library to accompany her husband to California. These three school vacancies were filled by Mrs. Marjorie Gersh, a graduate of U.C.L.A. with both teaching and library experience, Mrs. Bodil Gilliam who received her Master's Degree in Library Science from Simmons College, and Miss Claire Hymanson, a graduate of Boston University who has a teaching and library background.

Mr. James Campbell was appointed to the Custodial staff as a permanent employee replacing an interim employee.

Trustees

Mrs. Maude Thompson was reappointed to serve a second term of three years as a library trustee, and Mr. Robert J. Brosnan, after serving twelve years on the Board, was also reappointed for another three year term. In September, Mr. Robert Uek was reelected to serve as Chairman for another year.

During the year, the Board held eleven regular sessions and met in many special meetings in the interests of the budget, personnel, building and grounds and Friends of the Library spring program.

In December, the trustees were hosts to the staff at a Christmas Dinner Party.

Renovation Program

At last, the renovation program as originally conceived, is completed. New lights have been installed over the main desks in the Rotunda area, a glass partition has been built behind the "In" desk and a removable partition has been erected inside the front doors of the main entrance. This has long been needed and will add much to the comfort of both personnel and public during the cold winter months. Bids have been received for the furniture for the business area and new furniture for the reference room should be a reality within a few months. And at long last, the air-conditioning problem in the gallery area seems to have been solved with the installation of two air conditioning units and provision for fresh air from the outside.

Building and Grounds

The floors of the work rooms of the lower level of the main building were tiled upon completion of the termite control program, emergency repairs were made to the boilers at both the main library and the Dallin Branch and combination windows added to the windows of the lower level of the main library.

Dallin Branch

The work of converting the meeting hall at the Dallin Branch into a Children's room is under way. A vestibule has been built by the Public Works Department and a walk from Paul Revere Road to this new entrance has been laid, also by the men of the Public Works Department. Bids for the shelving and equipment have been received and are at present under consideration by the members of the Board of Library Trustees. Corridors and stairwells have been painted as well as the work and rest rooms.

Friends of the Library

On April 15, 1964, the Friends of the Library presented Commander James Calvert and Maxime Berlitz Vollmer to a near capacity crowd at the Lowe Auditorium of the Arlington High School in recognition of National Library week. Plans for the 1965 event have already been formulated; the Friends expect to present Cornelia Otis Skinner to the Arlington townspeople.

Robbins Print Collection

Monthly exhibits have been shown in the Print Gallery under the direction of Miss Ellen P. Wiese, Curator of the Robbins Print Collection. Displays have included the work of local artists as well as outstanding exhibits from various galleries and libraries. Several opening teas have been held with gratifying response from the public. Many people have been attracted to the library through these exhibits, a source of much satisfaction to Curator, Staff and Trustees.

Grant-In-Aid

Through State Aid to Libraries legislation, the Town of Arlington received a grant in the amount of \$12,488.25, representing twenty-five cents per capita, from the Commonwealth of Massachusetts during the year.

In addition to this money, the library returned to the town \$9,601.01 collected as fines for overdue and lost books.

Conclusion

During the past few years, the trustees, through its renovation program, have tried to provide adequate facilities for the library program which is being carried on. These enlarged and new areas have provided some relief. It is apparent, however, that more space is vitally needed. The use which the citizens of Arlington and their families are making of the library and its resources indicates that the main building needs an addition of a sizeable wing in the near future. A Reference Room seating sixty-four people and a Young Adult room with twenty seats is utterly inadequate for the numbers of young people and adults who, of necessity, are turning to their libraries for study, research and reading. The trustees are facing this problem by seeking funds for a survey of building needs which will furnish guidelines for future action.

Not only is added space needed at the main library. The East Branch also faces a problem in this regard. A doubling of the available floor space would not be inconsistent with the program now being carried on in the branch to say nothing of its future growth.

Another critical need is for more parking space. The present area is inadequate for the needs of the library patrons; it fails completely to meet the demands made upon it by the organizations whose members so frequently meet in the library hall.

The trustees are cognizant of the devotion and cooperation of the Librarian and the entire staff in making the library program effective and far reaching and to the custodial staff for its interest and help in keeping building and grounds in good condition.

The Trustees wish to pay special tribute to the Town Manager for his constant support and help, and to the Board of Selectmen for their concern for the library.

Mention must also be made of the special assistance given the library during the year by Mr. Frank O'Hara and Mr. Wilbur Roby and the personnel of the departments they represent. The cooperation of Mr. John Smith as well as that of the personnel of the many town departments upon whose help the library is so dependent is likewise appreciated. Finally, the trustees wish to thank the Friends of the Robbins Library for their sustaining interest and active participation in the library program.

Respectfully submitted,

Robert T. Uek, Chairman
Board of Library Trustees

Report of the Librarian

To: The Board of Library Trustees

1964 has ended. For many years library reports have indicated that each successive year has been busier than its predecessor, that the people of Arlington have been making increased use of their library and it would seem to be repetitious to make this observation once more. But facts are facts; they cannot be denied, and the fact is that the use of the library in 1964 surpassed that of all other years in its history. In retrospect it was a year of intense activity within the library itself. An endless stream of boys and girls, high school and college students working on papers and projects, books and bibliographies, using encyclopedias, handbooks, periodicals and other reference materials filled the reference room, the Young Adults Department, the Junior Library and the branches; adults came seeking solutions to problems, books for courses, information for business, answers to a hundred and one questions; it was a stream almost overwhelming at times.

Mr. Miller, the Town Planner, has aptly described the reason for this unprecedented use of the local library in an article prepared some months ago, which seems relevant to quote at this time. He wrote, "The growing demand for books and other library services is part of a national trend, but the situation is even more acute in the Town of Arlington because of a high percentage of families in white collar occupations. The demand for knowledge and the highest standards of education for the children places increasing pressures on library facilities. In addition, the library finds itself dealing with the needs of a new educational philosophy at the elementary, high school and college levels. The approach of using the standard class text book as a teaching device has been discarded. The new approach to education would have the students dealing with research problems, either individually or in small groups. This technique of educating the youth is the resultant of a quiet revolution that has taken place in American education as an aftermath of Sputnik in 1957. The student, working with this approach, is expected to find as much relevant information as he can from as many books and other library resources as possible."

This truly describes the present situation. For libraries and librarians this is an exciting period, a time of stimulating challenge and endless opportunity, for it is the task of the librarians to make the human record available and useful "in promoting the welfare and growth of our society". With the growing importance of libraries in relation to the explosion of knowledge, the basic need for well-trained personnel is essential.

Arlington's library has well qualified professional assistants, but it hasn't enough of them. This became all too evident this past year when at times the desks in the various departments were besieged with people who needed help and who found no librarian to serve them. The "knowledge explosion" and the change in educational thought and teaching methods have made new demands on the library, and created new problems and new opportunities which must be faced by all those responsible for its support and maintenance.

There is no way of knowing how many people used the resources of the library in 1964. The facilities are there for browsing, for reading newspapers and magazines, and for looking up wanted information. It is impossible to estimate how many citizens took advantage of these privileges. The number of registered borrowers, however, who are in good standing, represents better than 45% of the population, or 23,879 card holders. Registration is continuous. The borrower's card is renewed at the end of each three year period; expired registration cards are automatically withdrawn from the files each

month, leaving an accurate count of active borrowers. During 1964, 3,491 new borrowers were registered, of whom 1,809 were adult, 270 young people and 1,412 children.

"OF THE MAKING OF BOOKS THERE IS NO END"

During 1964, 19,164 new titles were published in the United States. This figure does not include the paper backs of which there were 9,287 new titles published. From this mass of material, selection for the Robbins Library had to be made in the light of monies available, current needs and the maintenance of a sound book collection for future use. 4,720 new titles were bought in the twelve month period, and 5,241 duplicate copies and replacements were added making a total of 9,961 volumes purchased in 1964. Distribution of books cataloged was as listed below:

	Main Library	Dallin Branch	East Branch
Adult	4,747	535	679
Juvenile	<u>1,415</u>	<u>683</u>	<u>711</u>
Total	6,162	1,218	1,390

At the close of the year the library collection numbered 150,087 volumes.

"THE REFERENCE BOOKS NEVER NEEDED DUSTING"

Figuratively speaking, the dust never had a chance to settle on the reference books in any department during 1964, as they were in constant use. On open shelves, the books were available to anyone who wished to use them. Therefore, no record of their use could be kept. An attempt was made, however, to record the questions asked the librarians, and 25,221 were so recorded. This figure does not include questions involved in the use of the books placed on reserve in the various departments of the main library or the branches to help the children and young people with special assignments and projects. Throughout the school year, at the request of the teachers, books were kept on reserve in order to give all students an equal opportunity to complete their assignments. The subjects were many and varied, some of which were biology, history, English literature, mathematics, astronomy, astrology, earth science, cooking, bookkeeping, background material for French classes, musical instruments, and artists and musicians. Classes of 140 - 150 used these reference materials for which no accounting was made. College students, too, sought background material for papers and theses. Periodicals, old and new, as well as books were in greater demand than ever before. Five volumes of the READERS' GUIDE TO PERIODICALS, worn out from constant use, had to be replaced during the year. Day after day, the Reference Room was filled with students, often leaving no room for adults who wished to read and browse. The Business Alcove also saw increased use and many were the favorable comments from both men and women over the fact that business and technical materials had been gathered together and shelved in one place.

BOOKS, PERIODICALS, PHONORECORDINGS, PICTURES, FILMS WERE ACTIVE

NOTES ON THE MUSIC DEPARTMENT

The circulation of 25,812 phonorecordings during the year indicated a gain of 208 over the preceding year. That there was an increase was amazing inasmuch as the department had to be closed so many days during the hot summer months before the installation of the air conditioning. The increase is an indication of the continually growing interest among the patrons, both old and new, in this department. The appropriation for the year allowed the purchase of 578 new recordings, the most distinctive of which, perhaps, were the John F. Kennedy Memorial albums, Beethoven's complete symphonies conducted by Bruno Walter, the complete History of Music in Sound, (10 volume set) and the Winston S. Churchill Memoirs and Speeches.

"Realistically evaluated", according to the Music Librarian, "the collection offers a selective representation of each of the following types of musical and non-musical material: language, history of music, classical, jazz, folk music, musical shows, literature, history and children's recordings. From the manufacturer's point of view, every recording made is necessarily the best. From the librarian's point of view, however, extensive evaluation and selection is demanded and naturally presupposed before an item listed among the 'musts' becomes an addition to the collection. . . . Selection of music materials is by no means haphazard. . . budget, patrons' requests and the general need are considered. . . new recordings are judged in the light of knowledge and existing reviews, the most reliable of which continue to be the American Record Guide, Art News, Down Beat, Hi Fidelity, Musical America and Notes and Opera News."

PROGRAMS, FESTIVALS AND OTHER ACTIVITIES IN BRIEF REVIEW

The biggest event of the year was the program presented by the Friends of the Library in the Lowe Auditorium of the High School on April 15. Captain James Calvert, U.S. Naval Officer and author, Commander of the nuclear submarine U.S.S. Skate, which surfaced through the frozen Arctic icecap, and Mrs. Maxime Berlitz Vollmer, granddaughter of the founder of the famous language schools, were guest speakers. Following the program, a reception planned by the trustees was held at the library in honor of these guests and for the friends who had worked so hard to make the evening a success.

Librarians from all over the state attended the coffee hour on March 17, 1964 for the Assistant Librarian, Miss Elizabeth J. Hodges, whose book, the Three Princes of Serendip, was published during the month.

In April, the Annual Art Exhibit of the Massachusetts Federation of Women's Clubs was hung in the Art Gallery of the Robbins Library and several hundred people attended the opening Tea held on April 3, 1964.

In May, the Annual Spring Book Festival was observed with displays of new books for children and visits to the Junior Library and the Dallin and East Branches by classes from the elementary schools of the town.

The summer reading program for children under the name of the Serendipity Reading Club reached 933 boys and girls, 280 through the Junior Library, 267 through the Dallin Branch and 386 through the East Branch. Quality in reading, rather than quantity, was stressed with the result that some unusually good reading was done by the children during the summer months.

Book week was a busy time for the Librarians of the Junior Library and Dallin and East Branches. Activities of various kinds were planned to interest non-readers as well as readers in the exciting world of books, and to encourage parents and other adults to understand the importance of books in the life of a child. Story hours, book talks, class visits, exhibits of new books and old favorites were the order of the day, culminated with a Festival of Books on November 13 in the Junior Library Hall. Mrs. Beryl Robinson, Readers' Adviser at the Boston Public Library, the guest speaker, chose as her subject, OLD FAVORITES AND NEW BOOKS.

Eighty-eight children's programs were presented during the year, 24 at Dallin, 23 at East and 41 at the Junior Library. Stories, films, and one matinee show, were presented, usually on Saturday mornings, and were enthusiastically received by the children. In this connection, perhaps it should be pointed out that the story hours at the East Branch were held under great difficulty inasmuch as there is no hall or community room available. The programs had to be conducted in the main room of the branch with adults and older children coming and going, a distraction under the best of circumstances.

OF MANY THINGS

The Library worked with many community organizations during the year. Bibliographies were compiled for Study Clubs and other groups. Special exhibits of books were displayed on such subjects as the mentally retarded, education, civil rights, world affairs, citizens for peace, decisions, Red Cross, adult education, music week, to mention a few.

Reading lists were prepared for children and young people. Of special significance were the lists compiled by the Junior Library for each grade,

at the request of the school authorities to encourage the children to read during the summer vacation months.

Instruction in the use of the library was given to the members of the classes of the Vocational and Technical High School, to the eighth grade classes of both Junior High East and West as well as to students of St. Anne's, St. Agnes' and the Arlington Catholic High School. These classes usually came for instruction before the nine o'clock opening of the library.

The elementary school librarians, under the direction of the Supervisor of Children's Library Activities, carried on the program of library instruction and class enrichment in the eleven elementary schools, supplying the teachers and students with materials for study and research, introducing books, telling stories and by all possible means helping the boys and girls to acquire an interest in books and a desire to read. Needed, now, is a full time librarian for each school instead of one for each two schools, the present arrangement. It is becoming increasingly evident in educational circles that school libraries are essential to the school curriculum and that a school without a library is a "crippled school".

To help with the Primary Enrichment Program carried on by the Arlington Public Schools during the summer months at the Hardy School, the school library was kept in operation and two librarians were assigned to provide the necessary materials for the program. Once more, cooperative effort brought satisfactory results. The fine relationship which has been established between the Arlington School Department and the Robbins Library is a source of great pleasure to the Staff of the Robbins Library. It is only through such cooperation that the children of the schools can reap the full benefits of the School Library Program.

Eighty-two visits were made to the Symmes Hospital by the Hospital Librarian and 3,236 books were borrowed from the Library book truck by the patients of the hospital.

The Library hall was used by 58 groups on 300 occasions and the hall at the Dallin Branch was used for 53 meetings by 10 groups.

A number of the Professional Staff members were active in the Library Clubs and Associations during the year, serving as officers and committee members of various groups, and the Robbins Library was host to a number of these groups, such as the Young Adults' Librarians and the Children's Librarians of Metropolitan Boston.

'TIS TIME TO ACKNOWLEDGE GIFTS'

The Library expresses its sincere appreciation to many people:

To the friends and borrowers who have loaned exhibits and displays ranging from wood carvings to science collections and which have come from individuals as well as groups and placed in every department of the library and its branches.

To the Arlington Garden Club for its beautiful flower arrangements which have added color to the desks and have elicited appreciative comments from the public.

To all who have remembered the library with gifts of books and magazines. These have been welcome additions to the library collection.

To the Arlington Press for its unusually fine cooperation in giving coverage to the library and its activities on a weekly basis.

AND IT'S TIME TO GIVE THANKS

To the Town Manager who, by his support and help, has demonstrated his recognition of the importance of an adequate, well-stocked, well-staffed library in the life of the community today. Arlington is fortunate to have a man of his calibre as Town Manager. The Librarian is grateful for his understanding and help.

To the Board of Library Trustees of which there is no equal. To the members of this board the citizens of Arlington owe a lasting debt of gratitude for untiring, unremitting endeavor to provide good library service to the town. The Librarian is especially grateful for the assistance and support she has received during the past year and appreciates the fact that every board member is mindful of the great potential facing libraries today.

To the members of the staff who have so uncomplainingly taken this trying year in stride, often working split shifts, extra hours (without compensation) and sometimes three evenings a week in order that the public might be served. To the staff goes the credit for the day to day accomplishments.

To the Custodians whose duties seem ever to increase with added responsibilities and who take pride in the appearance of the buildings and grounds.

A THOUGHT FOR THE FUTURE

Today, the need for good libraries, well-stocked and well-staffed to meet the problems created by the "information" and education explosions is everywhere acknowledged. This need can be met only to the extent that funds are made available. Will Arlington rise to the challenge and provide these funds?

Annual Report of the Department of Public Works

Mr. Edward C. Monahan
Town Manager
Arlington, Mass.

Dear Mr. Monahan:

I herewith submit the Annual Report of the Department of Public Works for the year ending December 31, 1964.

During 1964 the Public Works Department constructed Henry Street from Wright Street to Elwern Road; Henry Street from Elwern Road to the Winchester Town Line; Elwern Road from Henry Street to its end; Hartford Road from Winchester Road to Hodge Road and Everett Street from Ernest Road to Wheaton Road.

Under Article 69 of the 1964 Warrant certain Ways which had originally been constructed by Developers were completed by the Department. These consisted of Everett Street from Broadway to Ernest Road; Hiawatha Lane from Tower Road to its end; Tomahawk Road from Mohawk Road to its end; Seminole Avenue from Tomahawk Road to its end; Peck Avenue from Lanark Road to its end; Wilbur Avenue from Wollaston Avenue to its end; Ridge Street from Yerxa Road to Winchester Road and Ridge Street from Oldham Road to Pawnee Drive.

Under Article 53, Reconstruction of Certain Streets, the Department reconstructed Academy Street from Maple Street to Irving Street; Appleton Street from Park Avenue to Hillside Avenue; Maple Street from Pleasant Street to Academy Street and Massachusetts Avenue from Medford Street to Boston and Maine Railroad, southside. Any or all parts of Eastern Avenue, Florence Avenue, Jason Street, Oakland Avenue, Orvis Road, Russell Street, Robbins Road and Westminster Avenue will be completed in early 1965.

Under Article 49 of the Warrant new concrete and bituminous sidewalks, drives and new curbstones were installed in various locations throughout the Town.

Public sidewalks which had become deteriorated or raised were reconstructed and curbstone reset in various locations. This program must of necessity be continued.

During 1964 the New England Telephone and Telegraph Company installed a large transcontinental conduit through Arlington. This Company deposited with the Town the sum of twenty thousand (\$20,000) dollars for new sidewalks in those locations where present sidewalks were destroyed. This deposit allowed us to replace with concrete, full width sidewalks where formerly there were brick and bituminous concrete sidewalks. This program did much to improve the sidewalks on Massachusetts Avenue and will be completed in 1965.

Chapter 90 Reconstruction of 1963 was performed on Grove Street and Mystic Street at Beverly Road. It is anticipated that Contract for Chestnut Street will be completed in early 1965. We provided all concrete drain pipe, manhole covers and frames and catch basin frames and grates in addition to providing location of all underground structures.

On one occasion during a heavy rainstorm we had to install sandbags around four homes on Florence Avenue near the Concord Turnpike. This situation was corrected immediately thereafter by the installation of special size grates to take care of such flash-flooding.

Our Sewer, Water and Storm Drain Systems were extended in various locations throughout the Town. In some instances mains were installed by developers.

We are constantly making every effort to improve the efficiency of our Water System. Through the splendid cooperation of the Fire Department hydrant pressure tests are taken periodically and the mechanical functioning of the hydrants noted. Any repairs or adjustments necessary are made immediately by our Water Division. Fire flow tests were conducted in conjunction with our Fire Department in various locations.

We cleaned and flushed 109,390 feet or over 20 miles of Sewer Mains in 1964. Our eight sewer pump chambers were constantly observed and maintained. As in previous years we were called upon to aid those residents whose Particular Sewer services had become clogged. In many instances the obvious cause was excessive use of detergents. It is however an excellent service and well appreciated by those in distress. This service is rendered on an emergency twenty-four hour basis.

Our Storm Drain System was extended and enlarged in various locations (see Chart - Table 111). In many instances larger grates were installed. These Storm Drain mains are now flushed and cleaned on a similar basis to that of our Sewerage System. Catch basins are cleaned constantly of debris and dirt.

Public Roads and sidewalks were maintained and 51,193 square yards of roadway were sealcoated. This program must be continued each year in order to keep our streets in good condition.

We are still disposing of our rubbish in a Land Reclamation Project on Summer Street just east of Reed Street. The sanitary landfill method used is not only economical from the Town's standpoint but is also reclaiming land areas which previously were virtually impossible to build upon. Our garbage was collected within the terms of contract with Pitt Disposal Company. Their performance has been extremely satisfactory and complaints have been kept to a minimum.

Every effort was expended during the Winter season to adequately plow, sand and salt our highways. The removal of snow is now accomplished rapidly with our Snow Blowers. As previously, we sign contracts with truckers and contractors for the use of their trucks when the size of the storm demands additional equipment. With the large number of vehicles on the roads in this area it is imperative that we hit every storm quickly and efficiently.

During 1964 we performed many services for other Departments as follows:

Park Department:

Installed gate valve for wading pool; shutting off of bubblers at various locations; installing Town Seal on truck; repairing drain gate at Hills Pond; resurfacing with bituminous concrete basketball court at Crosby School and the annual grading at the Reservoir Beach for bathing purposes.

Robbins Library:

Regrade walks and area for bicycle rack at Dallin Branch; installing shelving at Main Branch; installing linoleum on work bench, East Branch; pointing front steps of Main Branch; installing dry well at Dallin Branch; painting hallways and public toilets at Dallin Branch; repairing railings,

doors and painting at Main Branch; repairing windows and miscellaneous carpentry at Dallin Branch. Repairing doors at East Branch.

School Department:

Picking up food supplies in Boston and delivering to cafeterias throughout the year; removing gravel and cleaning catch basins at Senior High School; checking and renewing concrete blocks at Thompson School; installing bituminous concrete walks and drives at Brackett School; cleaning catch basins at various schools; repairing bituminous concrete at Bishop School.

School Building Maintenance:

Lettering doors and installing Town Seal on vehicles; furnishing and installing conduit for communication system between 23 Maple Street and Junior High Industrial Arts building.

Stratton School Building Committee:

Installing storm drain and catch basin box and installing bituminous concrete berm.

High School Addition and Reconstruction Committee:

Installing chain link fence and gates at Senior High School; widen concrete header on Mill Brook culvert to sideline of Mill Brook Drive; remove fence and erect chain barricade.

Fire Department:

Construct dry wells and conductor pipe at Park Circle Station.

Engineering Department:

Install Town Seal on station wagon.

Town Clerk:

Remove and burn ballots.

Welfare Department:

Furnish and install signs; board up house at 18 Beacon Street; install fire windows and Dutch door in office; reconstruct and partition basement area for machine room and rest area for personnel.

Tree Department:

Install Town Seal on truck; repair pool drain at Town Hall grounds.

Board of Health:

Construct bookcase, construct and install sign and paint Office Furniture.

Cemetery Department:

Repair bridge at Mill Brook.

Election and Town Meeting:

Repair and reset Precinct boxes; relocate precinct boards at various locations; inspect and repair voting booths; deliver and pickup voting equipment.

Civil Defense:

Fill emergency water barrels.

General:

Our sign paint division in addition to the duties of maintaining all street signs, fences, etc. made and installed many other signs when called upon.

Automotive:

Our repair shop maintained and serviced not only Public Works vehicles but those of other departments with the exception of Fire and Police vehicles. Practically all of our equipment is of heavy duty construction such as road graders, power shovels, power cranes mounted on rubber, tractors both on rubber and tracks; road rollers up to fifteen ton weight, front end loaders, compressors, pumps of all descriptions and Walters Snow fighters. We rarely buy trucks of less than 30,000 lbs. G.V.W. The work entailed is laborious and heavy in nature. We maintain a large Stock Room and allow other departments to draw upon this stock.

Report of the Town Manager

February 5, 1965

The Honorable Board of Selectmen
Robbins Memorial Town Hall
Arlington, Massachusetts

Gentlemen:

Herewith is my report for the year ending December 31, 1964; it is the twelfth annual report, 1953 to 1964 inclusive, that I have submitted to your Honorable Board since my appointment as Town Manager on May 1, 1953.

In connection with our constantly increasing local tax rate, the dominating factors continue to be School Department costs and the ever increasing costs of state charges to the Town. Welfare costs increased sharply due to increased case-loads in M.A.A. (Medical Aid to the Aged) and A.D.C. (Aid to Dependent Children). The trend in such costs will undoubtedly continue.

Although all state and municipal authorities believe that something needs to be done to relieve the heavy burden on real estate property owners, it would seem that as we enter the year 1965, we are no nearer a solution that we have been for the last several years; nevertheless, there continues to be a "crying" need for action by the Massachusetts General Court to correct the inequity by a new tax program, the revenue of which would be distributed to cities and towns.

Particular reference is made to my report for the year ending December 31, 1961, which covers in great detail the effect on the Town's tax rate economy of the school construction program that has been in process pursuant to the original Harvard Survey Report of 1954. The matter is covered at considerable length in the 1961 report and there is no particular point in restating it here, except to say that school costs continue to have a progressively greater impact on local real estate taxes.

In this report, I present the results of a study I have made of the facts and figures of a selected group of well regarded cities and towns in the State which reveals Arlington's ranking and standing in several highly important areas of municipal government. These comparative facts and figures speak for themselves without the need of any comments by me.

PER CAPITA COSTS OF LOCAL GOVERNMENTS

Of twenty-four selected cities and towns in the Commonwealth of Massachusetts, Arlington ranks fifth in net operating costs of government as reflected by the Per Capita Direct Tax (source - Massachusetts Federation of Taxpayers Association, Inc., "Tax Talk", October 1964.)

ARLINGTON'S CREDIT

Arlington's credit is the highest. On any given day (interest rates fluctuate from day to day). Arlington invariably borrows money at lower interest rates than any other city or town, whether the borrowing be for short term or long term, whether the maturity be one year, five years, ten years, fifteen years or twenty years. CLASSIFICATION OF FIRE INSURANCE RATES

TWENTY-FOUR SELECTED CITIES AND TOWNS IN MASSACHUSETTS

Source - New England Fire Insurance Rating Association, Municipal Protection Department, 89 Broad Street, Boston, Massachusetts - 02106 - as published in "Municipal Voice", May 1964 (Massachusetts League of Cities and Towns).

The classifications of Massachusetts cities and towns as listed are derived on the basis of application of the National Board of Fire Underwriters Standards Schedule for Grading Cities and Towns of the United States, with respect to their fire defenses and physical conditions. This Schedule is used throughout the United States, and classifications for all cities in the country are based on its application. The grading schedule is revised periodically to include changes brought about by technological advancements in fire protection.

There are seven major divisions of the grading schedule (see below) and the relative importance of each division with respect to the overall protection grading of the community may be seen from the percentages shown for each division.

The seven major divisions of the grading schedule are as follows:-

Water Supply	34%
Fire Department	30%
Fire Alarm	11%
Police	1%
Building Laws	4%
Fire Prevention	6%
Structural Conditions	14%
	<u>100%</u>

Note - Only six communities in the State, five of them large cities, have a fire insurance rating higher than Arlington; they are Boston (pop.-697, 197), Springfield (pop.-174, 463), New Bedford (pop.-102, 477), Fall River (pop.-99, 942), Newton (pop.-92, 384) and Brookline (pop.-54, 044). All of said communities are in "Classification 2" as compared with Arlington's "Classification 3"; there are no communities in "Classification 1".

ARLINGTON'S PUBLIC SERVICES

In the opinion of many competent municipal observers, the standards of public service in Arlington in practically all respects are the highest. A few cities and towns may equal Arlington's public services in some respects, but taken as a whole, no community in the State can completely match Arlington's standards of public service, and these at the lowest possible costs to the taxpayer.

Of the twenty-four selected cities and towns, Arlington's Per Capita property valuations are the lowest; Arlington's Per Capita debt is among the lowest; Arlington's Per Capita operating costs are among the lowest; and Arlington's Free Cash Position is the highest with a single exception.

Herewith, also, are the annual reports for 1964 of the various town departments under the supervision of the Town Manager. I am sure you will find them most interesting and satisfying; they record performance and progress in the constant and continuing efforts of the town's employees to improve public service to the town's residents.

For their cooperation during the year, I wish to thank the Honorable Board of Selectmen, the Finance Committee, the Personnel Board, and all other town departments, boards and commissions.

My thanks are extended to the employees of all departments under my supervision and control who are especially deserving of my gratitude for their fine teamwork during the year. Considering the number of complaints and the enormity of the task, faults have apparently been relatively few in the rendering of public service to the citizens of the Town.

The Town of Arlington is indeed fortunate in the number of outstanding citizens, including Town Meeting members of school building committees, who give of their time and efforts to the various unpaid boards and commissions of the Town Government. Sincere thanks are expressed to them for their truly tremendous services to the town during the year just closed.

To the citizens of the Town, my sincere thanks are extended for their continued cooperation, confidence and encouragement which make worthwhile every effort expended in their behalf by their town employees, including the Town Manager.

Respectfully submitted,

ECM/eaw

Edward C. Monahan
Town Manager
